M. SADASIVA RAO,

Deputy Commissioner in charge.

SHIMOGA DISTRICT.

PROCEEDINGS OF THE THIRD ORDINARY MEETING OF THE DISTRICT BOARD HELD IN THE TOWN HALL AT SHIMOGA, AT 12 NOON ON FRIDAY, THE 24TH MARCH 1922.

Members.

Present, 28.

Absent, 8.

1. Read letter No. 2371-8—Edn. 121,21-6, dated 20th December 1921 from the Chief Secretary to Government, requesting to obtain the views of the District Board for the levy of an Education cess up to one anna in the rupee.

Resolution.—As the opinion of the Taluk Boards have not all been received, it is premature to consider the question. It will be taken up at another meeting of the Board specially convened for the purpose.

2. Read letter No. L. 842-9—A. E. 275-206, dated 10th August, 1921, from the Chief Secretary, calling for the views of the District Board in regard to the scheme relating to the improvement of Live Stock in the State by purchasing one year old bull calves from the Amrut Mahal Department at Rs. 100 per head and giving it to the raiyat at a concession rate of Rs. 50 provided the animal is utilised for the breeding purposes only.

Resolution.—The Board are of opinion that the scheme may be tried on the assumption that the balance of the value of the calves is wholly met from Government funds. They consider that side by side with the scheme the existing provision for purchase and maintenance of serviceable bulls should be maintained unimpaired.

3. Read letter No. L. 4076-82—L. B. 26-21-16, dated 23rd January 1922, from the Revenue Secretary to Government calling for the views of the District Board in the matter of extending to the Sanitary Inspectors serving under Local and Municipal bodies the concession of the grant of horse allowance in addition to ordinary travelling allowance sanctioned in G. O. No. Fl. 1085-135—S. A. 107-19-33, dated 20th August 1921.

Resolution.—It is observed that at present the Sanitary Inspectors receive no travelling allowance for journeys within their jurisdiction. The Board are willing to have the same concession extended to Sanitary Inspectors whenever they are entitled to travelling allowance, i.e., that there should be no deduction therefrom of the horse or cycle allowance for the period.

4. Read letter No. C. 928-10, dated 15th December 1921, from the Sanitary Commissioner forwarding for the opinion of the District Board a revised set of rules to regulate the training of candidates for employment as vaccinators.

Resolution.—The Board are of opinion that rules 7 and 8 which are new additions are more or less unworkable. As regards rule 7, the pay now available is not sufficient to attract men of the educational qualification required. As regards rule 8, it is not expedient to differentiate by birth alone without consulting the readiness of the individual to undertake the work required from him.

5. Read opinion furnished by the several Taluk Boards regarding the grant of remuneration to the Taluk Sanitary Inspectors and Vaccinators for the performance of work in Municipal Towns in addition to their duties in the Taluks.

Resolution.—The Sanitary Inspectors are full-time servants of the Board and, as such it will not be correct for them to receive an allowance for the service rendered by them to other bodies at the instance of the Board. The case is different as regards vaccinators as there is a minimum of work to be turned out by them fixed. A *per capita* allowance of annas two may be permitted as regards vaccinations conducted within Municipalities so long as this done without prejudice to their work in the Taluk Board area.

6. Read Channagiri Taluk Board President's report No. 574, dated 9th January 1922, submitting the resolution of the Taluk Board recommending the increase of house-rent to the Basavapatna Vaidyasala from Re. 1 to Rs. 2 per month.

7. (1) Read Channagiri Taluk Board President's report No. 566, dated 5th January 1922, submitting the resolution of the Taluk Board recommending the grant of horse allowance to the Sanitary Inspector in lieu of cycle allowance as the villages in the Taluk are not served with roads and consequently the subordinate cannot inspect all the works in the interior easily.

Resolution.—Sanctioned.

(2) Nagar Taluk Board President's report No. 601, dated 17th November 1921 on the same subject.

Resolution.—Sanctioned.

Resolution.—This may be recommended to Government for sanction.

9. Read Shikarpur Taluk Board President's report No. 820, dated 25th January 1922 and 755, dated 17th January 1922, respectively, submitting the resolution of the Board recommending the holding of shandys every Friday in Maravalli (Hosur hobli) and Mayathammanamuchadi (Udagani hobli) villages.

Resolution.—Sanctioned.

10. Read Nagar Taluk Board President's report No. 766, dated 13th January 1922, submitting a supplemental bill for Rs. 8-14-5 for sanction being the arrears of Malnad allowance due to the Local Fund Attender as per G. O. No. 12827-8—L. B. 19-18-19, dated 4th April 1919.

Resolution.—Sanctioned.

11. Read Nagar Taluk Board President's report No. 593, dated 14th November 1921, submitting for sanction a refund bill for Rs. 11-14-0 (which was credited to C. No. 9, dated 31st July 1919 at Nagar Taluk Treasury), being the sale proceeds of a stray buffalo impounded in the Ripponpet Cattle Pound, as the amount has since been claimed by the owner.

Resolution.—Sanctioned.

12. Read Nagar Taluk Board President's report No. 525, dated 27th October 1921, submitting the resolution of the Taluk Board recommending the cancellation of the order sanctioning the holding of a shandy at Lakshimpur.

Resolution.—This may be recommended for cancellation.

13. Read Tirthahalli Taluk Board President's report No. 508, dated 7th January 1922, submitting the resolution of the Board recommending that the annual District Fund grant of Rs. 40 allotted to the old road from Bhimanakatte to Tirthahalli-Mangalore road might be transferred to the new road opened by the Matt as the latter route is both nearer and more convenient.

Resolution.—As there is no objection to the shifting of the grant, this may be done.

14. Read report No. 638, dated 5th January 1922, from the President, Kumsi Taluk Board, stating that the sweepers in the Village Panchayets of Harnahalli and Ayanur are whole-time servants and consequently they are paid at Rs. 10 per month from November 1921.

Resolution.—The Board are of opinion that in Panchayet areas it is advisable to fix the maximum pay of menial servants at Rs. 7.

15. Read report No. 407, dated 6th November 1921, from the President, Kumsi Taluk Board, submitting the resolution of the Board to the effect that the villagers of Tyajavalli are not able to provide a cattle pound at their own cost and suggesting that the amount of Rs. 105-13-4 which is at the credit of the Village Panchayet may be utilised for the construction of the pound, the balance being met by the District Board.

Resolution.—The Board do not consider it possible to pay any amount towards the construction of the pound. The Panchayet should itself construct the building out of the funds at its credit, as the whole income is to be debited to itself.

16. Grant of contribution of Rs. 150 towards the expenses of the District Conference.

Resolution.—Sanctioned.

17. Read letter No. 4046-7—I. C., dated 25th January 1922, from the General Secretary to Government requesting to intimate if the District Board can make any funds available during the current year for the grant of loans for encouraging rural and cottage industries.

18. Read letter No. G. C. 30-6, dated 2nd March 1922, from the Senior Surgeon in Mysore, calling for the views of the District Board about the proposal for enhancing the usefulness of the itinerant dispensaries in the Malnad.

Resolution.—The Board agree with the District Medical Officer that the same officer cannot attend to the intineration and station work and that the staff should be duplicated. Further consideration of cost is reserved pending receipt of detailed information on the subject.

19. Read report No. 802, dated 1st March 1922, from the President, Kumsi Taluk Board, in the matter of absorbing the post of attender as proposed by the District Board stating that there is sufficient work in the Kumsi Taluk Board office as in other Taluk Board offices and that it is necessary to retain the post.

Resolution.—The District Board are not satisfied that there is sufficient work for an attender as the Taluk Board area is proportionately smaller than other Taluk Boards and no statistics of work have been furnished.

- (2) Petition of Mr. D. Krishna Rao and others of Kumsi received with Revenue Secretary's Official Memorandum No. L. 4668—L. B. 8-21-10, dated 16th February 1922, received in the matter.

B. 16-19, proposing that the collection of fees made in the jatras be in the first instance credited to the funds of the temple in connection with which the jatra is held and the actual expenses incurred by the local body on sanitary arrangements be paid from the temple funds.

Resolution.—The Board are of opinion that the jatras are still in process of development and it is not practicable to frame any set of rules which will cover all cases irrespective of the history of the jatras, their inauguration and development and departmental responsibility for their conduct. They consider that each case has to be decided upon the special circumstances attending upon it and the proportion in which the temple and the District Board should participate in the income will have to be fixed in consideration thereof.

26. Read letter No. L. 5110-7, dated 7th March 1922, from the Revenue Secretary to Government requesting to submit definite proposals of the District Board for the orders of the Government about the recovery of suitable charges from Motor Companies for plying Motor vehicles on the District Fund road.

Resolution.—The Board has been considering the matter and are of opinion that it is high time that a license fee is charged from the owners of the buses plying for hire. The best method of levy appears to be to charge a fee once every quarter or six months according to the tonnage or carrying capacity of the bus, or where there is only one concern at an annual mileage rate. As the only District Board road on which the bus runs is from Shimoga to Honnali via Nyamat and there is only one company running thereon a mileage rate of Rs. 20 per annum may be charged.

Dispensary at Bhadravathi also resolution dated 31st January 1922 of the Municipal Council, Bhadravathi agreeing to bear the cost.

Resolution.—It was only recently that an extra allowance was granted. The Board do not see any reason to grant also a house rent seeing that none of the Government servants excepting officials of the Forest Department draw any house rent.

It is hereby notified that in satisfaction of arrears of land revenue due by the revenue defaulters, the undermentioned immovable properties will be sold by public auction as shown below.

The sale will commence at 11 A.M. and the properties will be knocked down to the highest bidders without reserve.

7. Purchasers having completed the payment of the purchase money, will, as soon as the sale has been confirmed by the Deputy Commissioner, be placed in immediate possession and the property will be registered in the name of the purchasers, and a certificate of sale, signed and sealed by the Deputy Commissioner, will be granted to them. I.—Report of the Special Committee.

There were a few changes in the personnel of the Committee appointed in Government Order No. 9650-62—Edn. 15-19-50, dated 9th April 1920, for considering the several questions connected with the Sanskrit Colleges in Bangalore and Mysore.

2. Dharmadhikari K. Rama Sastry, regretted his inability to serve on the Committee and in his place the President of the Managing Committee of the Bangalore Sanskrit College was appointed as a member.

Subsequently, Mr. K. S. Chandrasekhara Aiyar expressed his inability to serve as Chairman; thereupon Rajasabhabhushana Mr. Karpur Srinivasa Rav was appointed to be Chairman of the Committee, the vacancy in the membership being filled up by the appointment of Mr. R. Shama Sastry, B.A., Curator, Oriental Library, Mysore.

3. The following gentlemen have finally served on the Committee:

1. Rajasabhabhushana Karpur Srinivasa Rav, Esq., B.Sc., L.C.E., President.
2. Rajasabhabhushana Rao Bahadur K. Krishna Iyengar, Esq., B.A., B.C.E.
3. Rajakaryaprasakta Rao Bahadur M. Shama Rao, Esq., M.A.
4. T. E. Jeyarama Aiyar, Esq., B.A., B.L., Muzrai Superintendent and President of the Committee of the Chamarajendra Sanskrit College, Bangalore.
5. S. P. Rajagopalachari, Esq., B.A., B.L., President of the Committee of His Highness the Maharaja's Sanskrit College, Mysore.
6. Prakthanavimarsa Vichakshana Rao Bahadur R. Narasimhachar, Esq., M.A.

4. The Committee have met six times on the following dates:

i. 25th July 1920 in the Sanskrit College, Mysore. iv. 6th Dec. 1920, Sanskrit College, Mysore.

ii. 22nd August 1920 „ Bangalore. v. 13th March 1921 „ do

iii. 20th November 1920 „ Mysore. vi. 30th May 1921 „ Bangalore.

5. Only four of the members, viz., Rajasabhabhushana Karpur Srinivasa Rav (President), Mr. R. Narasimhachar, Mr. R. Shama Sastry, Brahmasri Maha Vidvan Ayya Sastry attended all the six meetings. Mr. A. Mrityunjaya Iyer was absent at the last meeting being away on leave. Mr. S. P. Rajagopalachari attended four of the meetings. Mr. T. E. Jeyarama Aiyar was absent for the fourth and fifth meetings while Messrs. K. Krishna Iyengar and M. Shama Rao attended only two meetings each.

6. The proceedings in the first meeting began with reading the several Government Orders constituting the Committee and defining the questions referred to the Committee for opinion; the Committee decided generally on the points requiring detailed consideration with reference to the Bangalore and the Mysore Sanskrit Colleges as well as the admission of Non-Brahmins into these.

7. Mr. S. P. Rajagopalachari was requested to furnish the Committee with a note on all the points requiring consideration in respect of the Sanskrit College at Mysore. Mr. T. E. Jeyarama Aiyar was requested to furnish a similar note in respect of the Sanskrit College at Bangalore. And with reference to the question of admission of Non-Brahmin students into the Colleges, Mr. A. Mrityunjaya Iyer was requested to furnish a note giving all available information in the subject.

8. The Committee have duly considered the notes furnished by the gentlemen and the resolutions of the Committee have been formally recorded in the Proceedings of the several meetings. Copies of the notes and of the Committee's resolutions thereon are annexed hereto.

9. In considering these questions, the Committee have also had the unique advantage of having been favoured with the valuable views of His Highness Rama Varma, Ex-Raja of Cochin, an eminent scholar of Sanskrit and a distinguished patron of Sanskrit Learning. His Highness during his stay at Bangalore in October last was graciously pleased to visit the Sanskrit College, Bangalore, where he was presented with an address of welcome by the College Staff and had a discourse with them in the several Sastras. His Highness has graciously left on record his impressions of the College and its work. At the request of Rajasabhabhushana Karpur Srinivasa Rao, His Highness has also recorded his valuable views on certain points in connection with the Sanskrit Education in Mysore. Copies of the observations recorded by His Highness in the Visitors' book of the College and of his note regarding the Sanskrit Education in Mysore are appended.

10. The Committee now proceed to lay before the Government their views and recommendations on the several questions referred to them by Government in accordance with the resolutions unanimously adopted at their several meetings. The questions specifically referred by Government to the Committee are:—

- i. Whether in view of the very small number of students studying in the College classes of the Bangalore College, these classes need be continued in future and whether the Institution may not be reduced to the status of a High School;
- ii. Proposals for the improvement of the Maharaja's Sanskrit College, Mysore, and for redistribution of staff of the two Colleges, if necessary, and the re-adjustment of scholarships and other facilities to students between the two Institutions;
- iii. Whether the Veda and Prayoga classes need be continued in the Bangalore College;
- iv. Admission of Non-Brahmins to Sanskrit Colleges at Bangalore and Mysore.

ADMISSION OF NON-BRAHMIN INTO THE SANSKRIT COLLEGES.

11. The last of these questions is first taken up for consideration as, upon that depends, to a large extent, the determination of other questions. Having regard to the great importance of the question it was considered desirable to ascertain the rules and practice obtaining in the prominent Sanskrit Colleges elsewhere in India, particularly those at Benares, Jaipur and Calcutta which are all Government Institutions of recognised standing. The Heads of the Colleges at Benares and Jaipur were written to and their replies are filed with the records.

12. The Sanskrit College at Benares is the oldest seat of Oriental Learning in India, having been started more than a hundred years ago. This is also the only Institution maintained by the Government of India out of Public Funds. The Registrar of this College writes that the Institution is still governed by the ancient rule, that the Adhyapaka selects his own pupils and that as regards admission to the Sanskrit College, the Government imposes no restriction, the Adhyapaka being free to select his own pupils.

13. The Principal of the Maharaja's College, Jaipur, writes that admission to the Jaipur State Sanskrit College as a whole is restricted to the Dwijas of the three Varnas only in all the subjects and to Brahmins alone in the Vedas. The rule of the Government Sanskrit College at Calcutta as stated in the University Calendar is that the College is open to Hindus occupying a respectable position in Hindu Society irrespective of castes.

14. Turning to the two premier Sanskrit Institutions in the State, Mr. A. Mritunjaya Iyer has, as noted in para 8 above, drawn up two notes one about the Mysore College and the other about the Bangalore College, wherein he has given a brief history of each of the two Institutions and explained the orders issued by Government from time to time in regard to the admission of Non-Brahmin students into them.

15. From the note relating to the Mysore Collège, the Committee find that Non-Brahmins have not at any time been given admission into this Collège. In 1904 the question was raised on the application of a Jain student; the Government after a full consideration of all the points passed an Order No. 4549-51, dated 7th April 1906 finally declining to allow the admission of Non-Brahmins into the Collège. Again as a result of the questions raised at the Representative Assembly of April 1918, the point was referred to the Board of Sanskrit Studies for expression of their opinion. The Board after obtaining the views of the Managing Committee of the Collèges at Mysore and Bangalore and of the Adhyaksha of Melkote Collège, advised the Government that having regard to the tradition which the Mysore Collège had acquired as the seat of strict orthodox learning and in view of the fact that it is the only one in the State in which all Vedic and Sastric subjects are taught, any change in the existing system would not be attended with advantage either to the Non-Brahmin students desirous of admission or to the Sanskrit Learning in general.

16. The Committee are of opinion that the considerations governing the order of 7th April 1906 still continue to exist, even with greater force with reference to the Mysore Collège. In the reorganization of the Mysore and Bangalore Sanskrit Collèges ordered in proceedings No. 13333-45—Edn. 103-15-7, dated 27th September 1917, the Collège at Mysore has been made the chief seat of Vedāṅga Sastras and it has been equipped with an efficient staff of Brahmin Professors. There is nothing in this order dated 27th September 1917, that would go to modify the order of April 1906 in relation to the maintenance of the Mysore Collège strictly as a Seat of Orthodox Learning.

17. His Highness the Ex-Raja of Cochin also strongly recommends that such maintenance of our valuable ancient learning is quite necessary and that there can be no difference of opinion on this point. His Highness is also against compelling the old Orthodox Pandits to teach Non-Brahmin students, as such a course would defeat its own purposes. This readily explains the wholesome rule of the Benares Collège whereby the Adhyapakas are left to select their own pupils and even the Government of India have imposed no restriction whatever in the matter.

18. After much consideration of this important question in all its aspects, the Committee have resolved that the Government be advised to continue the Sanskrit Collège at Mysore as a Seat of Ancient and Orthodox Learning as heretofore and not to admit Non-Brahmins into this Institution.

19. In regard to the Bangalore Collège, however, from Mr. Mrityunjaya Iyer's note, it is found that on some previous occasions a few Non-Brahmins have been admitted into the Collège under certain reservations, viz., providing separate classes in a separate building for Vedās and Vedāṅgas.

20. Again, when the question was discussed at the Representative Assembly of April 1918, it was referred to the Board of Sanskrit Studies for expression of their opinion. On this, the Bangalore Collège Committee sent a resolution to the Board that the objection to the entry of Non-Brahmin students can be waived in case a separate building is made available for the holding of Veda, Adhyayana and Prayoga classes; and the Board accepting the resolution, sent a recommendation to Government that Non-Brahmin students might be admitted into the Bangalore Sanskrit Collège as an experimental measure subject to the condition stipulated by the Collège Committee.

21. Further, Mr. T. E. Jeyaram Aiyar, as President of this Collège Committee, has now stated that Non-Brahmins might be admitted into the Collège for study of all subjects other than Veda, Vedānta and Vedāṅga, the classes teaching these latter subjects being held in a separate building.

22. Taking into consideration all these circumstances connected with this Collège, the Committee concur in the recommendations already made by the Board of Sanskrit Studies and now also advanced by Mr. T. E. Jeyaram Aiyar and they accordingly submit the following resolutions for the favourable consideration of the Government:

- i. That the Sanskrit Collège, Bangalore, may be thrown open to Non-Brahmins of all classes of the Uttama Hindus for study of all subjects, except those coming under the category of Veda, Vedānta and Vedāṅgas;
- ii. That separate accommodation be provided in the Bangalore Sanskrit Collège to teach Vedic and allied subjects.

23. The Committee beg to add that in permitting the admission of Non-Brahmin students into the College classes, the Government will be pleased to follow the rule adopted in the long standing Government of India Sanskrit College at Benares noted above, so as not to compel any Pandit already on the staff of the College to teach the classes containing Non-Brahmin students, but to allow any Pandit that may object to teach Non-Brahmins for reasons of conscience, the option of taking a transfer from the College without prejudice to his service.

SEPARATE ARRANGEMENTS FOR THE VEDIC CLASSES.

24. The question whether Veda and Prayoga classes need be continued in the Bangalore College stands answered by the concluding portion of the Committee's recommendation about the admission of Non-Brahmins into the College.

It would be a highly retrograde step to close the Vedic and Prayoga classes altogether from the Bangalore College. The Committee unanimously consider that these classes should be continued, open however, to Brahmins only as heretofore as in the Maharaja's College, Jaipur; they also recommend that when any Non-Brahmins are admitted into the College, these classes should be held either in a separate building or if possible, in a separate portion of the present College premises.

25. The maintenance of this Vedic Institution will also serve as a feeder to the Agama classes which the Committee understand will shortly be opened in the Mysore Province with a view to revive the ancient culture and learning of the Archak classes employed in the performance of Puja services in the numerous temples in the State.

26. The cost of the Institution is not after all much, being only Rs. 90 a month on an average according to the latest sanctioned scale of pay of the Vedic Teachers, only three in number.

THE FUTURE STATUS OF THE BANGALORE COLLEGE.

27. The next question to consider is whether in view of the very small number of students studying in the Bangalore College, these classes need be continued in future and whether the Institution may not be reduced to the status of a High school. The Committee have instituted close enquiries into the cause of the present low strength of the College classes of the Institution and they are of opinion that it is really due to some extent to the abolition in 1917 of all the higher classes for teaching Sastras except Sahitya. The orthodox students of Sanskrit generally wish to study the Sastras in preference to the simple Sahitya.

The diminution in the attendance is also due to no small degree to the want of help and facilities to students, by way of accommodation and boarding.

28. In Bangalore there is no boarding arrangement whatever except that a few students are fed in the Government chattram and that only, by one meal a day.

The lodging place of the students is more than two miles from the Chattram; in short, they are put to very great inconvenience; whereas in Mysore much better facilities by way of board and lodging are provided for. The Committee are confident that with adequate arrangements and due provision for the free boarding and accommodation of students similar to those in the Mysore College, this College will also rapidly progress both in strength and efficiency.

29. Further, in view of the resolution to throw open the Sanskrit Literary classes of the College to Non-Brahmins, it appears to the Committee that the reduction of the Institution to the status of a High School simultaneously with this resolution would be a retrograde step as that will only deprive the Non-Brahmins of the benefits of advanced Sanskrit Study for which they have been so long yearning and as such a reduction would defeat the main object in question.

30. Yet another reason why the Institution should be kept up to the College standard is to be found in the very name which the Institution now bears. From the history of the College given in Mr. Mrityunjaya Iyer's note, it will be seen that the Institution which was originally a small private Patasala kept up by grants-in-aid from the City Municipality, the Sri Sringeri and the Sri Parakala Matts, was taken over under Government control and shifted to the present premises being a renovation of the old Arsenal buildings; and in doing so the Government in 1896 were pleased to give it its present designation 'Chamarajendra Sanskrit College' in memory of His Highness the late Chamarajendra Wodeyar Bahadur, G.C.S.I. The College being

thus one of the monuments standing in memory of His Highness the late Maharaja, the Committee are unable to bring themselves to consider any proposal to reduce the status of the College.

31. All circumstances considered, it is the unanimous opinion of the Committee that the College should be continued, providing for the full Sahitya course as at present and even improved as explained in para 33 below, so that it may serve as a First Class Sanskrit College open to all Uttama Hindus and be maintained in a standard of efficiency in keeping with the Honoured name it bears in memory of His Highness the late Chamarajendra Wodeyar Bahadur, G.C.S.I.

32. The Committee take this opportunity to submit also for the consideration of Government that the mere admission of Non-Brahmins into the Bangalore Sanskrit College will not itself prove a sufficient stimulus to the study of Sanskrit, so long as the prospects in life of passed Vidwans are no better than they are at present. The Committee therefore beg to invite reference to the recommendations contained in para 22 of the report of the Committee of the Sanskrit Education submitted to the Government in February 1916, on the subject of the "Students' Future Career"; and as no orders appear to have been passed in the matter, the Committee beg leave to request the earnest consideration of Government again to the subject. The observations recorded by His Highness the Ex-Raja of Cochin, noted above, fully go to confirm this view and it is desirable to do something substantial in this direction.

33. Mr. A. Mrityunjaya Iyer, in the last para of his note on the Sanskrit College, Bangalore, has proposed that the opportunity may be taken to advance the cause of Sanskrit Education more effectively by reorganizing the Institution somewhat on the lines of the Government Sanskrit College, Calcutta, and the Oriental College, Lahore, where an advanced study of Sanskrit Literature is so combined with a study of English and other secular subjects as to render the Sanskrit Graduates competent to take their place in the general services, professions and duties of public life, on a par with their brother Graduates of the Universities.

IMPROVEMENT TO THE MYSORE SANSKRIT COLLEGE.

34. The next question relates to the proposals for the improvement of the Maharaja's Sanskrit College, Mysore, and for the necessary redistribution of staff of the two Colleges and the readjustment of scholarships and other facilities to students between the two Institutions.

The Committee having decided to recommend that the Mysore College should continue as a seat of Ancient and Orthodox learning as heretofore and that the Bangalore College alone might be thrown open to Non-Brahmins but still maintained to the college standard of study of Sanskrit Sahitya, supplemented by a suitable and adequate course of instruction in English and secular subjects of general knowledge, it has been thought superfluous to go into the question of a redistribution of the staff in the two Colleges and of the readjustment of the scholarships and other facilities to students between the two Institutions; the requirements of the two Colleges have therefore been considered separately.

35. As regards the improvements to the Mysore College, Mr. S. P. Rajagopalachari, as President of the College Committee, has furnished a note dealing exhaustively with the requirements of the Institution under the following heads:—

- i. Increase of staff of Sastra Professors and Tutors,
- ii. Improving the scale of annual increments to their salaries,
- iii. Improvement of the College accommodation,
- iv. Boarding arrangements for students,
- v. Addition to the staff for English General Instruction,
- vi. Increase to the Library and Reading Room Establishments,
- vii. Revision of the course of study.

Mr. Mrityunjaya Iyer has supplemented the above with a further note of his views on the several proposals of Mr. S. P. Rajagopalachari.

Copies of these notes are appended and the resolutions of the Committee thereon are embodied in the Proceedings of the 5th meeting held on 13th March 1921.

At the meeting Mr. Rajagopalachari accepted the slight modifications urged by Mr. Mrityunjaya Iyer in regard to the College staff and the scale of increments to

their pay and the proposals as so modified have been unanimously adopted by the Committee, as under—

i. That three more Professors for Dharmasastra, Mimamsa and Prachina Tarka might be appointed at once as at present there are none for these subjects which are as important as those for which Professors have been appointed, though there are students actually studying the same; and that in view of the large number of classes and students of Tarka and Vyakarna the tutorial staff might be strengthened by the appointment of one more tutor for Tarka and two more Tutors for Vyakarna.

ii. That the scale of increments to the pay of Professors and Tutors may be somewhat improved by revising the same as hereunder so as to admit of the maximum salary being reached in seven years instead of ten.

Professors	Rs. 50—5—70	4 years
	70—10—100	3 years—7 years

Tutors	Rs. 30—2—38	4 years
	38—4—50	3 years—7 years

iii. In regard to the college accommodation the Committee consider that the proposals of Mr. S. P. Rajagopalachari to give additional accommodation and to put up electric installation deserve favourable and early consideration as such improvements will not only be useful to the college, but also to the public to whom the premises will serve as a hall for occasional cultured conversazioni and public lectures by Pandits and Oriental Scholars.

39. One of the essential requirements of the College, forcibly urged by Mr. Rajagopalachari is the institution of Boarding arrangements for the students of the College. He urges that though help is now given to some of the students in the shape of cash stipends yet the inconvenience now being felt in the matter is that most of the students in the College find it very difficult to make their own arrangements for their boarding, that many students, particularly those who come from outside, find it hard to provide themselves with a healthy meal and that there are specific instances in which they have fallen seriously ill and have even forsaken their studies and gone away. Mr. Rajagopalachari, therefore considers it very desirable that some suitable arrangements should be made immediately for feeding those students of the College who cannot afford to make arrangements of their own and he adds that enquiries relating to the subject go to show that if proper arrangements are made for feeding many more students than at present will seek admission into the College and thus the strength of the College will increase.

40. The Committee are convinced that boarding and lodging facilities are very essential appendages to the efficient working of Sanskrit Colleges. These facilities have been provided elsewhere too as for instance at Calcutta and Tiruvadi (Tanjore) of late. The Committee have, therefore, no hesitation in fully recommending the proposal of Mr. S. P. Rajagopalachari for the institution of more complete boarding arrangements in the Sanskrit College, Mysore. In doing so, the Committee wish to add that the acceptance of cash stipends or free boarding in the alternative might be left to the option of students even in the case of those who have no houses in the city.

41. In regard to the financial aspect of this proposal, the Committee are of opinion that the institution of boarding may not after all involve much extra cost. It is understood that the Government have sanctioned Rs. 1,135 a month for the grant of scholarships to the students; this amount should, under ordinary circumstances, be sufficient to meet the cost of the boarding on the lines proposed by Mr. S. P. Rajagopalachari. It may, therefore, be taken as the standard budget allotment subject to the understanding that if at any time the provision be exceeded by reason of increase in the number of students fed or of a rise in the market prices of provisions, special sanction be obtained for the amount of excess expenditure so actually incurred.

42. Mr. Rajagopalachari states that some additional staff for the English classes and the Library and the Reading Room of the College will be required two years hence. His proposals in this respect are recommended for the consideration of Government when necessity therefor actually arises.

43. Lastly, Mr. Rajagopalachari has proposed certain modifications in the present Curriculum of Studies and Mr. Mrityunjaya Iyer has, in his note, exhaustively dealt with the question of revising the course of Supplementary General Instruction and of the study of Jyothisha. The Committee consider that the subject of the Curriculum of studies in this College is a matter more appropriately dealt with by the Board of Sanskrit Studies and have accordingly resolved to leave these proposals for the consideration of the Board, recommending, however, for special consideration of the Board the proposals of Mr. Mrityunjaya Iyer in regard to the courses of *Vidwat Study* in Jyothisha.

44. The requirements of the Sanskrit College, Bangalore, have, at the request of this Committee, been specially considered by the Managing Committee of the College and Mr. Jayarama Aiyar in forwarding a copy of the resolutions of the Managing Committee adds that the full requirements of the Vedic Section depend upon the alteration in the Curriculum of Study and that therefore the question will be taken up later for discussion.

45. The Managing Committee of the Bangalore College have for the present proposed the following as the essential requirements of the College to maintain the same in an efficient condition:—

- (i) Revision of the College staff to suit the altered conditions arising from the admission of Non-Brahmin students into the Institution;
- (ii) Separate arrangements in the way of accommodation for the Veda and Prayoga classes;
- (iii) Boarding arrangements for Brahmin students and award of scholarships for Non-Brahmin students;
- and (iv) Improvement of the College Library.

46. The present Committee fully concur in these moderate proposals but as further matters relating to this College depend on the decision of Government in regard to the admission of Non-Brahmins and the re-organization of the College on the lines proposed above, exact details of cost cannot be given at this stage. But the present proposals of Mr. Jayarama Aiyer have been duly embodied in the accompanying proposition statement relating to the College.

47. To summarise, the recommendations of the Committee on the several questions referred to them by Government are:—

I. *In regard to the Bangalore College:—* (a) To continue the Institution in the status of a College; (b) to provide separate accommodation for the Vedic and Prayoga classes; (c) to throw open the Sanskrit, Kavya and Sahitya classes to Non-Brahmin Hindus subject to the understanding that any Pandit objecting to teach Non-Brahmins for reasons of conscience will be allowed the option of taking a transfer from the College without prejudice to his service; (d) to take this opportunity to reorganise the College, somewhat on the lines of the Sanskrit College, Calcutta; and (e) to place the Sanskrit Graduates on a par with their brethren of the Universities in the matter of prospects in life.

II. *In regard to the Sanskrit College, Mysore:—* (a) To continue the Institution as a Seat of Ancient and Orthodox Learning open only to Brahmins as heretofore; (b) to Strengthen the College staff by three more Professors and three more Tutors, to cope with the increased work in the College; (c) to revise the scale of increments to the salaries of Professors and Tutors so as to enable them to get the maximum in seven years instead of in ten years; (d) to provide better boarding arrangements to the students; and lastly (e) to improve the College building, Library, etc., as recommended by Mr. Rajagopalachari.

48. Proposition statements exhibiting the financial aspect of the several recommendations in respect of the two Colleges are appended.

1. Rajakaryaprasakta Rao Bahadur M. Shama Rao, Esq., M.A.

The following papers were considered:—

(1), Letter dated 13th November 1920, from Mr. T. E. Jayarama Iyer, President of the Managing Committee of Bangalore Sanskrit College, forwarding two Memoranda regarding the Institution prepared by the Principal.

(2) Notes by Mr. A. Mrityunjaya Iyer, regarding the question of the admission of Non-Brahmins into the Sanskrit Colleges at Mysore and Bangalore.

(3) The President also read over a Note (copy appended) which he had received from His Highness the Ex-Raja of Cochin regarding the question of Sanskrit Education in the State, considered with reference to:—

- (1) Admission of Non-Brahmins.
- (2) Encouragements to students.
- (3) Change of curriculum and
- (4) Prospects of the passed students.

In this Note His Highness has directly stated that the ancient culture of India must be preserved even with greater justification than the archaeological remains of the country and that the Pandit teachers cannot be forced against their will to teach Non-Brahmin students. It is also understood that when the same question was recently brought before the Legislative Council in June last, it was accepted that it would not be justifiable to force the Pandits already in service to teach Non-Brahmins. His Highness has also suggested that arrangements may be made to accommodate Non-Brahmin students in existing High School and Colleges by engaging one or two Pandits in addition.

RESOLUTIONS.

Mr. Mrityunjaya Iyer's notes are exhaustive and give the previous history of both the Colleges. From the note relating to the Mysore College, the Committee find that Non-Brahmins have not at any time been given admission into this College, and when in 1904, the question was raised on the application of a Jain student, the Government, after a full consideration of all the points, passed order No. 4549-51 dated 7th April 1906 finally declining to allow the admission of Non-Brahmins into the College. Again when, as a result of representation made at the Representative Assembly of April 1918, the question was referred to the Board of Sanskrit studies for expression of their opinion, the Board after obtaining the views of the Managing Committee of the Colleges at Mysore and Bangalore and of the Adhyaksha of Melkote College, advised the Government that having regard to the tradition which the Mysore College had acquired as the seat of strict orthodox learning and in view of the fact that it is the only one in the State in which all Vedic and Shāstric subjects are taught, any change in the existing system would not be attended with advantage either to the Non-Brahmin students desirous of admission or to the Sanskrit learning in general.

The Board, however, accepting the Resolution of the Bangalore College Committee on this behalf, recommended that the system of admitting Non-Brahmins might be tried as an experimental measure in the Sanskrit College, Bangalore, subject to the condition stipulated by the College Committee, viz., that a separate building should be made available for the Veda-adhyayana and Prayoga Classes.

In regard to the Bangalore College, however, from Mr. Mrityunjaya Iyer's note, it is found that on some previous occasions some Non-Brahmins have been admitted into the Bangalore Sanskrit College under certain reservations, viz., providing separate classes for Vedas and Vedāngas.

Further Mr. T. E. Jeyarama Iyer, as President of the Committee, has now stated that Non-Brahmins might be admitted into the College for study of all subjects other than Veda, Vedānta and Vedānga the classes teaching these latter subjects being held in a separate building. After much consideration of this important question in all its aspects, the Committee concur in the recommendations already made by the Board of Sanskrit studies and now also advanced by Mr. T. E. Jeyarama Iyer, and accordingly resolve:—

(a) That the Sanskrit College of Mysore be continued as a seat of ancient and Orthodox learning as heretofore and that non-Brahmins may not be admitted into the College.

(b) That the Sanskrit College, Bangalore, may be thrown open to Non-Brahmins except Panchamas and Mussalmans for study of all subjects except those coming under the category of Veda, Vedānta and Vedāngas and that the College be continued with full course up to the Vidvat Examination in Sahitya.

(c) That separate accommodation be provided for in the Bangalore Sanskrit College to teach Vedic and allied subjects.

II. In regard to the question raised in Government Order dated 9th April, 1920, viz., whether in view of the very poor number of students, the College Classes in Bangalore College need be continued in future and whether the Institution need not be reduced to the status of a High School, the Committee resolve that in virtue of the above resolution, the Bangalore Sanskrit College must be continued for the full Sahitya course as at present and even improved as explained in the sequel so that it may serve as a First Class Sanskrit College opened to all Uttama Hindus and be maintained in a standard of efficiency in keeping with the honoured name it bears in memory of His Highness the Late Chamarajendra Wadiyar Bahadur, G.C.S.I.

III. Turning to the poor strength of the Bangalore College classes, the Principal in his Memorandum forwarded by Mr. Jayarama Aiyar, has explained the causes for the present low strength of the Institution and he has submitted some proposals for improving efficiently the condition of the College. The Committee on a study of these memorandums are of opinion that the present poor attendance is due, to some extent, to the abolition in 1917, of all the classes for teaching Shastras which the orthodox students of Sanskrit wish to study in preference to simple Sahitya, and to no small degree to the want of help and facilities to students in the way of accommodation and boarding. There is no boarding arrangement whatever in Bangalore except that a few students are fed in the Government Chattram, and that only by one meal a day. The lodging place of the students is more than 2 miles from the Chattram; and in short they are put to very great inconvenience whereas in Mysore much better facilities by way of board and lodging are provided for and the College Committee of Mysore have recommended further improvements. It is therefore essential that similar facilities should be provided for in Bangalore. In fact such boarding and lodging facilities have, the Committee understand, been provided for in Sanskrit Colleges elsewhere such as those at Tiruvady and Calcutta. The Committee are confident that with similar adequate arrangements and provision for the free boarding and accommodation of students, this College will rapidly progress both in strength and efficiency. The Committee therefore resolve that the Government be advised to continue the Bangalore Sanskrit College in its present status as a College and to afford to the students of the College sufficient help in the way of free accommodation and boarding.

IV. The Committee take this opportunity to submit also for the consideration of the Government that the mere admission of Non-Brahmins into the Bangalore Sanskrit College, will not itself prove a sufficient stimulus to the study of Sanskrit, so long as the prospects in life of passed Sanskrit Vidwans are no better than they are at present. The Committee therefore beg to invite reference to the recommendations contained in para 22 of the Report of the Committee of the Sanskrit Education submitted to the Government in February 1916 on the subject of the "Students' Future Career" and as no orders appear to have been passed on the matter, the Committee beg leave to request the earnest consideration of the Government again to the subject. The observations recorded by His Highness the Ex-Raja of Cochin noted above fully go to confirm this view and it is desirable to do something substantial in this direction. Mr. Mrityunjaya Iyer in the last para of his note on the Sanskrit College, Bangalore, has proposed that "the opportunity may be taken to advance the cause of Sanskrit Education more effectively by re-organizing the Institution somewhat on the lines of the Government Sanskrit College at Calcutta and the Oriental College, Lahore, where an advanced study of Sanskrit Literature is so combined with a study of English and other secular subjects as to render the Sanskrit Graduates competent to take their place in the general service, professions and duties of public life on a par with their brother graduates of English Universities."

It was therefore resolved that this question of efficiently improving the course of studies in the Bangalore College and providing alternate courses in Mysore College may be further considered at the next meeting when Mr. Mrityunjaya Iyer will please submit a full Note for consideration.

V. Regarding the improvements to the Sanskrit College, Mysore, it was resolved that the subject be reserved for consideration at the next meeting when the several proposals made by the Mysore College Committee would be discussed in detail after the members have duly studied the same.

3. T. E. Jeyarama Iyer, Esq., B.A., B.L., Muzrai Superintendent and President of the Committee of Chamaraajendra Sanskrit College, Bangalore.

Read and confirmed the Proceedings of the last meeting.

2. The note of Mr. S. P. Rajagopalachari making certain proposals for the improvement of the Sanskrit College, Mysore, was read and considered again in the light of the notes of Mr. R. Shama Sastri and Mr. A. Mrityunjaya Iyer.

The proposals of Mr. S. P. Rajagopalachari fall under the following heads:—

- a. Increase to the staff of Sastra Professors and Tutors.
- b. Doubling the annual increments of salaries of the Professors and Tutors so as to admit of the maximum being earned in five years instead of in ten years as at present.

- c. Addition to the accommodation and installation of electric lights in the College premises.
- d. Boarding arrangements for students.
- e. Addition to the staff for English General Institution (two years hence).
- f. Increase to the library and reading room establishment (two years hence).
- g. Revision of the establishment of the office of the Board of Sanskrit Studies.
- h. Revision of the course of study.

RESOLUTIONS THEREON.

I. In regard to the increase to the staff of Sastra Professors and Tutors and the increments to their salaries, Mr. Rajagopalachar accepted the modifications proposed in Mr. Mrityunjaya Aiyer's note; the Committee being of opinion that these modified proposals are quite suitable, it was resolved that the same be adopted for recommendation to the Government.

According to these proposals, the immediate needs of the College in the way of additional staff are:—

- (1) One Professor for Dharmasastra;
- (2) One Professor for Mimamsa;
- (3) One Professor for Prachina;
- (4) Two Tutors for Vyakarana; and
- (5) One Tutor for Tarka.

The Post Graduate Fellows of Vedanta will for the present help their respective Professors by teaching the classes for an hour or two every day.

II. The increments to the salaries for the Professors and Tutors will be spread over a period of seven years as hereunder:—

Professors	Rs. 50—5—70	4 years	7 years.
	70—10—100	3 "	
Tutors	30—2—38	4 years.	7 years.
	38—4—50	3 "	

Several of the Professors and Tutors might have already had three increments under the present grades and after they get the 4th increment shortly, their future prospects might be improved as above.

III. In the opinion of the Committee, the proposal to improve the present accommodation and put up electric lights in the College buildings deserve favourable consideration as it will be useful not only to the College, but will also serve as a hall for occasional cultured conversazioni and public lectures by Pandits and oriental scholars.

IV. In regard to the free boarding of students, the Committee are of opinion that the institution of such free boarding will go a great way to encourage the students and that the proposals of Mr. S. P. Rajagopalachari therefore be recommended for favourable consideration of the Government.

V. The proposals (e) and (f) above be recommended for consideration of the Government as necessity for such revisions arises.

VI. That the proposals for the revision of the establishment of the Board of Sanskrit Studies be left for the consideration of the Board.

VII. Lastly, in respect to the modification in the curriculum of College studies, in the opinion of the Committee, the matter is one which is more appropriately dealt with by the Board of Sanskrit Studies and that proposals of both Mr. S. P. Rajagopalachari and Mr. Mrityunjaya Iyer therefore be left for the consideration of the Board; in doing so, however, the Committee would recommend for the special consideration of the Board the proposals of Mr. A. Mrityunjaya Iyer in regard to the courses of vidvat study in Jyotisha.

VIII. Brahmāsri Ayya Avadhanigal brought to the notice of the Committee that Vedic recitation alone without a knowledge of Sahitya was not desirable and would not be of any value. The Committee concurred in this view, but they preferred to leave the matter to be considered by the Board of Sanskrit Studies.

IX. Resolved that the next meeting be held at Bangalore when the draft of the report to Government will be considered, the draft being drawn up and circulated beforehand to the members to enable them to discuss the same at the meeting, the date of which will be fixed after the draft was ready.

1. GOVT. ORDER No. 9650-62—Edn. 15-19-50, DATED 9TH APRIL 1920.

One of the points of reference to the Special Committee appointed in Government Order No. 2560-70—Edn. 66-14, dated 26th January 1915, to submit proposals for the improvement of Sanskrit Education in the State was whether it was sufficient to have one central Institution located in Mysore or whether there should be two separate Institutions in Mysore and Bangalore. The Committee was of opinion that the Mysore College should be the chief seat of advanced Sanskrit Education to which the Bangalore College should be affiliated and that the Mysore Sanskrit College should be provided with a very efficient staff composed of a competent Principal and well qualified teachers of advanced course in all subjects such as Sahitya, Veda, Mimamsa, Vedanta (Advaita, Visishtadvaita and Dvaita), Tarka, Vyakarana, Dharma Sastra and Jyotisha while it would be sufficient to equip the Bangalore Sanskrit College with a staff competent to teach Sahitya up to the highest standard and to teach Sāstras such as Vyakarana and Tarka as subsidiary subjects. It was accordingly directed in Government Order No. 3333-45—Edn. 103-15-7, dated 27th September 1917, that the Mysore College should provide for advanced courses in all subjects, the Bangalore College being affiliated to the former institution and equipped sufficiently to teach Sahitya up to the highest standard.

It is now reported that there are only three students studying in the II-Year College class of the Bangalore Sanskrit College and that there are no students in any of the other College classes in the College. Government consider that in view of the very small number of students studying in the College class of the Bangalore College, it is desirable to determine whether the College classes in that College need be continued in future and whether the institution may not be reduced to the status of a High School. Government are accordingly pleased to appoint a Committee consisting of the gentlemen whose names are noted in the margin* to consider the question

1. Rajasabhasubhanna Karpur Srinivasa Rao, B. Sc. B.C.E. (Chairman).

2. The President, Maharaja's Sanskrit College Committee, Mysore.

3. Rao Bahadur Mr. K. Krishnaiyengar B.A., L.C.E.

4. Rajakaryaprasakta Rao Bahadur Mr. M. Shama Rao, M.A.

8. Mr. R. Shama Sastry, B.A., Under Secretary, Mysore Secretariat.

9. Mr. A. Mutyunjaya Iyer, B.A., Under Secretary, Mysore Secretariat.

in all its aspects and submit their opinion to Government.

The Committee will also submit proposals for the improvement of the Maharaja's Sanskrit College, Mysore, and for the necessary redistribution

of staff of the two Colleges and the re-adjustment of scholarships and other facilities to students between the two institutions.

Extract from the University Calendar of Calcutta for the year 1916.

Sanskrit College, Mysore.

Affiliated 1860.

This is a Government Institution.

It was founded in 1824 for the encouragement of the study of the Sanskrit language and literature, and at first Sanskrit was studied exclusively. At present English is taught here up to the B. A. standard and Sanskrit to the standard prescribed for the B. A. Hon. Examination, and also for the Sanskrit Title Examination in several branches in the Oriental Department of the College. A class has been opened for teaching the Vedas at the request and expense of Madhavachandra Giri, the late Mohanta Maharaja of Traakeswar.

The College is open to Hindus occupying a respectable position in Hindu Society irrespective of caste. The tuition fee is Rs. 5 per month in the College Department, and Rs. 3 and Rs. 2 in the School Department. The privilege of the lower fee of Rs. 2 is conceded to 40 students of the College Department, who must be descendants of bona fide Pandits. The fee of one of the students is paid out of the endowment fund of Srimati Sati Devi of Chandernagore, besides these there are 75 free studentships for the Sanskrit Title classes.

A valuable library of printed works and manuscripts is attached to the College, and a Government grant of Rs. 1,200 per annum is applied to the purchase of standard English and Sanskrit Works.

No. 7.

Note from His Highness the Ex-Raja of Cochin.

I have been asked by Mr. Karpur Sreenivasa Ray to give my views on certain points in connection with the Sanskrit Education in Mysore. I gladly do so for the reason that nothing will give me greater pleasure or satisfaction than seeing the revival of the study of the Sanskrit Language and the innumerable precious works written in that language.

Admission of Non-Brahmins :— To take the last point first, I am much relieved to find it conceded that the preservation of the ancient culture of our country is both desirable and necessary. What requires to be considered then is whether, to attain this laudable end, the old system of imparting instruction is to be continued or not. I unhesitatingly answer in the affirmative. I had the privilege of knowing, and taking part in the Sastric discussions with Pandits of high intellectual powers and deep learning, not a few of whom, I am glad to say, came from this State, once the famous seat of learning in South India. I also had occasion to gauge the knowledge of Sastras possessed by those that were trained in what is called the Modern Method. Without in any way disparaging the good points in the latter, I may assert that, unless the students are taught in the old intuitive method, they attain only a very superficial knowledge of the various Sastras and even of Sahitya. They are generally unable even to realise the difficulties. Besides, is it not the practice everywhere in this world that only he who is well-versed in a subject is entrusted with the teaching of that subject? A good Pandit of the old school alone will be able to explain the intricate and highly subtle arguments of the advanced books, whether they be in Nyaya, Vyakarana, the two Mimamsas, or Sahitya. For want of encouragement, the number of such Pandits is even now fast diminishing and their quality gradually deteriorating and, in case it happens that the present generation of pandits pass away without transmitting their profound erudition to intelligent students, many important works on our Sastras will have ever to remain as sealed books. Already the systems of Sankhya, Yoga and Prabhakara have suffered irretrievably for want of scholars. The same fate will overtake the other Darsanams too, unless proper care is taken early enough to prevent it. There is hardly any need to expatiate upon these facts. If the result of the labours of some of the best intellects of any time or country is to be, happily, every body that has seriously thought about it agrees that it is to be kept intact, the old method of Sanskrit education is certainly to be resorted to.

The answer to the fourth point depends to some extent on the foregoing conclusion. The present Pandits belong without exception to the orthodox section of the Brahmin community and will not therefore willingly teach boys of other castes. Compulsion in such a matter is unthinkable and is also likely to defeat its own purpose. To safeguard the real interests of Sanskrit education the Pandits must be there as teachers. It is but a logical inference then that for some time to come, i. e., until the Pandits themselves succumb to the modern liberalising influences and see their way to teach others too, it is inadvisable to make the admission into the College free to all classes alike.

A very large majority of students now studying in the Colleges will also, I understand, dislike the innovation and would rather forego their studies than learn in such company. Such withdrawal is not a desirable thing and should be prevented. Moreover, in the interests of the boys of the other classes themselves, they should, I believe, be taught separately. For giving English instruction to backward classes, special schools are being opened in various parts. The same expedient should be adopted in this case, too. If, however a sufficient number of such boys do not come forward as to necessitate the starting of a special Patasala, the best thing to be done seems to be to make arrangements in a couple of existing High Schools or Colleges for the teaching of the Sastras with the assistance of the Sanskrit Pandits already entertained therein and of one or two newly appointed for the purpose.

Encouragement to students :— I fully endorse the Committee's opinion on the first point raised. Free boarding to all, the pecuniary assistance given where necessary during the time of studentship will certainly prove an inducement to many poor boys to join the College. But, it must be clear to everybody that, until the future prospects of these boys are made brighter than they are at present, it is vain to look

for a much further increase in the strength of pupils in purely Sanskrit institutions.

Course of studies.—In regard to the second point, namely the improvement in the curricula, I can hardly suggest anything now, as I know but little about what course is being followed here in each class and what result is being achieved. A full discussion with the Committee Members and the teachers concerned will be very helpful in deciding this matter. But I can say one thing without fear of contradiction, and that is, the quality of teaching should not be sacrificed for quantity. Nothing is calculated to do more harm than the making of hard and fast rules that so much should be taught within such a period. The teacher alone can know the kind of material he has to work with and the time required to produce the desired result. Of course the teachers should be watched and should not be allowed to shirk their duty. The Committee must take care not to prescribe too many books for any examination, as that will only retard the real progress of the student. A good deal will similarly depend upon the selection of text-books. One good book well taught is sure to produce better result than many carelessly read through.

Prospects to passed students.—I now pass on to the third and the most important point. Here too my views fall in with those of the Committee. The Sanskrit Pandits in the High Schools and Colleges should be recruited only from the passed students of the Sanskrit College. Undoubtedly they will be better equipped for the work than a Sanskrit B.A. or M.A. of the Madras University. Besides, these passed students, if they happen to possess what is called a working knowledge of English and Kannada, should be given suitable appointments in the several Public Offices of the State. It is but fair if they claim this privilege. They will have had a better training of their mental faculties than passed Intermediate students and, with a little training in the departments to which they are to be appointed, will be able to grasp and do the work much more intelligently and efficiently. They should also be allowed to sit for the various Government Examinations including the Pleader's test and even the Mysore Civil Service Examination. Hold out those prospects of acquiring power and money, the two things most coveted by men of this day and there will be no more difficulty to get students for the Sanskrit Colleges.

I should like to suggest one thing more. Those who pass the highest examinations and continue to give their undivided attention to their respective Sastras may be honoured by the bestowal of a Varashasana (fixed reward for recognised merit) of not less than Rs. 500 per annum. Thus will, I suppose, the lamp of our ancient culture ever be kept burning.

Before concluding these few remarks, I write to state that nowhere else does Sanskrit Education receive so much encouragement as in this State. His Highness the Maharaja takes a very keen interest in its cause. The present endeavours of the Durbar will, it is earnestly hoped, bring new life to Sanskrit learning and make Mysore once more the Southern centre of Hindu culture, as it really was in the day of Sri Krishna Raja Wodeyar of revered memory.

Remarks of His Highness the Ex-Raja of Cochin in the visitors' booklet of the Sanskrit College, Bangalore.

I visited the College this afternoon with my cousin. We spent over three most pleasant hours in the midst of the teachers and the students, inspecting the various classes. It was a great pleasure to us to see them all very interested in their respective work. The teaching seemed to us to be good. The work in this College is superior to that in the many institutions I have visited in other parts. This College supplies a real want and is a boon to those that are interested in the preservation of the sacred language of their forefathers.

It appears to us that a slight re-adjustment of the curriculam of the school and some changes in the method of teaching will greatly increase the efficiency of the Pathasala. The College building and the Library also stand in need of improvement.

We were accorded a very kind welcome, for which we feel grateful to all those concerned and especially to the learned and enthusiastic Principal.

Mr. A. Mritunjaya Iyer's note on Bangalore Sanskrit College.

Prior to 1870, some local Pandits were maintaining private Schools, where they taught Kavya to poor Brahmin boys.

These schools were by mutual consent amalgamated into one, Patasala for which a grant-in aid of Rs. 20 was sanctioned by the Education Department.

In 1885, the Patasala was taken over under the supervision of the City Municipality under the name of Vani Vidya Patasala and in the following year, Lalankāra Veda and Yoga were added to the subjects of study.

From 1886 and 1888, the Institution consisted of two Departments the Sastra and the Kavya; and in November 1889, these Departments were put together, and the Institution was named *Sanskrit College*, Bangalore, and placed under the management of a Committee.

The course of study was further supplemented by the addition of Tārka, Vyākaraṇa and Vedānta and arrangements were also made to impart instruction in Kanāreṣe, Mathematics, History, Geography, Agriculture and Hygiene.

In 1894, the old Arsenal building in the Fort was given away to the College; the dilapidated buildings were then practically reconstructed at a cost of over Rs. 10,000 from Muzrai funds; and when the College was removed to the new buildings, the present one, the name was changed into its present designation "*Chamarajendra Sanskrit College*," in memory of His Highness the late Chamarajendra Wodiar Bahadur, G.C.S.I.

As regards funds, when the Institution was taken over under Municipal management and raised to the status of a college, the Educational Grant was raised to Rs. 100 a month; the Sri Sringeri Matt contributed Rs. 100 and the Sri Parakala Matt Rs. 30 and these were supplemented by a Municipal grant of Rs. 50.

To facilitate timely payments of establishment charges, etc., orders were passed by the Government that the bills should all be paid from Government funds in the first instance, necessary adjustments of credits from contributions, as above being made in the accounts.

The Sri Sringeri Matt, however, stopped payment of its contribution in 1896, and the Sri Parakala Matt also stopped paying in 1906.

In 1906, when the College establishment was revised by the Government, some grants from other Muzrai Funds were assigned to make up the deficiency caused by the two Matts' stopping their contribution.

In 1916, the special Committee appointed to consider the question of Sanskrit Education in the State in submitting their views to the Government, proposed that the Mysore Sanskrit College be made the Chief seat of advanced Sanskrit Education and that it would be sufficient if Bangalore Sanskrit College be equipped only to the teaching of Sahitya to the highest standard and affiliated to the Mysore College.

These proposals were accepted by the Government in their order dated 27th September 1917. The College curriculum of study and the staff were accordingly revised as they stand at present.

The Sastra classes having been thereupon abolished, the Sanskrit Education in the College is confined to Sahitya, Veda and Prayoga.

In 1917, just prior to the abolition of the Sanskrit College, the strength of the several classes stood as follows:—

Vyākaraṇa
Tārka
Vedānta

Veda	10
Veda Prayoga	5
Total	15

Lower Anglo-Sanskrit classes	66
Grand Total	114

Last year there were 3 students studying Sahitya in the second year course and now there are only two Sahitya students.

The Veda and Prayoga classes have been however strengthened by the addition of Sukla Yajurveda classes; and the strength of the classes in 1919-20 was 39 as detailed below:—

Rigveda	3	Prayoga	8
Krishna Yajurveda	7	Do	6
Sukla Yajurveda	15	Do	5
Total	25		14

Grand Total 39

The Anglo-Sanskrit Classes have also gone down in strength the number in the rolls being only 33 the fall perhaps due to the abolition of school fees for Lower Secondary tuition in all Schools.

Lastly as regards the question of admission of Non-Brahmins it will be seen from the papers appended that Non-Brahmins students were studying in the College, the ruling adopted being that Non-Brahmins might be admitted to classes other than Vedas, Vedantas and Upanishads, and even so recently as July, 1919, the Committee have sent a Resolution to the Board of Sanskrit studies worded as hereunder:—

"Resolved that the Committee are of opinion that the objection to the entry of such students can be waived in case a separate building is made available for the holding of Adhyayana and Prayoga classes of the college."

Mr. T. E. Jeyarama Iyer as President of the College Committee has expressed the view that Non-Brahmins may be admitted by making separate provision for Veda and other classes.

If now it should be decided to throw open the College to the Non-Brahmins, the status of the Institution as a College should necessarily be maintained out of respect for the exalted name it bears the opportunity may however be taken to advance the cause of Sanskrit Education more effectively by re-organizing the Institution on the lines of the Government Sanskrit College at Calcutta and the Oriental College, Lahore, where an advanced study of Sanskrit literature is so combined with a study of English and other secular subjects as to render the Sanskrit Graduates competent to take their place in the general service, professions and duties of public life on a par with their brother Graduates of English Universities.

If this view be accepted I shall submit a separate note on this subject of the course of study that might be adopted.

Extract from the Report of the Sanskrit College, for the year

Vikrithi, 1890-91.

There was another false rumour ventilated in connection with the institution during the past year. It was to the effect that the Sanskrit College was intended exclusively for the benefit of Brahmin pupils and that there were no separate classes for pupils of other castes. There was a memorial sent up to the Educational Secretary by a few Non-Brahmins in connection with that point, and it was referred by that gentleman to the Honorary Secretary to the Sanskrit College Committee. The Committee then opened a separate class for Non-Brahmins pupils; but only one pupil came forward to join it; and after keeping up the classes for about four months in the hope that more pupils might be forthcoming, the class had to be abolished. But there is nothing in the resolutions of the committee to preclude the opening of

separate classes for Non-Brahmin pupils should sufficient numbers of them be willing to join these classes.

Papers relating to the Proceedings of the Meeting of the 22nd February 1903.
Office Memo:—

Two Lingayet students have come for admission into the Vyākaraṇa Śāstra class. Solicit orders whether to admit them are not. This is the first time when such students have come seeking for admission into this class.

2. A few years ago, a certain student of Shanar caste by name Kumāru, came from Travancore and Mr. Palpu, the present Vice-President of the City Municipality sought for his admission into the Tarka Śāstra class. After a deal of correspondence, Mr. Srinivasachari, the then President of the College Committee, decided that the student should be admitted; and at the same time passed an order that Non-Brahmin students (Mahommodans and Pariahs excepted) might be admitted into all the classes, other than Vedas, Vedāntas and Upanishads. Accordingly the student was admitted and he was ordered to be given scholarship also. He continued to study in the College for about 2 or three years.

There are Non-Brahmin students now reading in Kavya classes.

Proceedings of the Meeting thereon:—

Resolved that no Non-Brahmin students be admitted to any of the Śāstra classes.

2. In connection with the above question, Mr. Vaidyanātha Iyer proposed that the Non-Brahmin students (five in number) now reading in other than Śāstra classes, and who were admitted into the College without reference to the Committee, be also told to discontinue attending the College.

Resolved that on this point, information be obtained from the Maharaja's Sanskrit College, Mysore, as to whether Non-Brahmin students are admitted into the College, and further decision arrived at.

Note.—No reply was received in reply to the reference to the Mysore College.

No Non-Brahmin students were, however, admitted to any of the classes thenceforward, and those that had been admitted, prior to the Committee's resolution, have since left the College one by one. There are no Non-Brahmin students now in the College.

Non-Brahmin students

Resolutions of the Bangalore Sanskrit College Committee in the Meeting

held on 17th September 1890.

PRESENT: A. Srinivasachari, Esq., R. B. (President)
S. A. Bapu Rao, Esq., Honorary Secretary.
A. Rangaswami Iyengar, Esq., B. A. B. L.
Brahma Sri N. Venkatarama Sastry.

Read letter from the Education Secretary, regarding the admission of Non-Brahmins into the Sanskrit College.

Resolved that the Secretary be instructed to acknowledge the letters of the Education Secretary and the Vice-President of the Municipality and state that, it is understood that this College is not a purely Government institution, but one found out of old Sanskrit Institutions working in Bangalore supported by funds contributed by Hindu Maths, aided by grants from the Bangalore Municipality and Government Education Department and that while the Committee are willing to help the spread of Sanskrit Education among all classes of the Community they find themselves unable at present to admit Non-Brahmins into the existing classes owing to the strong religious objections on the part of the students to receive instruction which is partly religious along with Non-Brahmin boys and that till this prejudice wears away, the Committee are prepared to open separate classes for the instruction of such boys in all the subjects other than those clearly connected with the religion if a sufficient number come forward.

Letter from T. E. Jeyarama Iyer, Esq., B.A., B.L., Muzrai Superintendent in Mysore and President of the Managing Committee of the Sri Chamarajendra Sanskrit College, Bangalore, dated 13th November 1920.

Sir,

I have the honor to forward herewith two Memoranda regarding the Chamarajendra Sanskrit College, Bangalore, prepared by the Principal thereof.

2. I am of opinion that in view of the facts that non-Brahmins have been admitted into this College in the past and that with the march of times conservative ideas are dying out, giving place to enlightened views, it would not be quite proper to refuse admission to Non-Brahmins into this College, in so far, as subjects which are not either purely religious or quasi-religious such as, Veda, Vedanta and Vedangas, are concerned. In my humble judgment, these subjects may be taught in a separate building and Non-Brahmins admitted into the College where they can learn all the other subjects.

3. If this view is approved, the Bangalore College will be the only Government Sanskrit Institution open to Non-Brahmins and it will be imperatively necessary not only to maintain it in its present condition, i.e., as a College but to make provision for the teaching of other Branches of Sanskrit studies.

No. 13.

Note by the Principal, Sanskrit College, Bangalore.

1. The total strength of the Sanskrit College, Bangalore, has not at all declined; on the other hand it has considerably increased. For the total strength of Sanskrit and Veda classes (excluding 36 students of the English L. & S. Classes) was 53 in March 1918. Of these 1 passed the Vidwat Examination; one died; 3 Dwaita Vedanta students had no place, and 14 discontinued. The new admissions since then, till 8th August 1918, the date on which the new curriculum was introduced, was 21 (including 11 Sukla Yajurveda class). Thus there were 55 students available in August 1918 for redistribution to new classes as per the re-organization Scheme (Vide General Register). But the total strength of Sanskrit and Veda classes (exclusive of 44 students of English Lower Secondary classes) is 78 as it stood in July 1920 (Vide General Register).

2. Regarding the College Classes in particular, it may be said that the abolition of 4 branches (Tarka, Vyakarana, Jyotisha and Dwaita Vedanta) of the College course is the main reason for the fall in strength. But it may be borne in mind that after the above classes were abolished, the students that were reading in them were redistributed to both the College and High School Classes according to the capacity and qualifications of each student as required by the new Scheme. Thus it was possible to admit 2 students to the College classes and the rest to the various High School Classes.

3. In the Bangalore College, there is provision only for Sahitya Branch of study. As one of the 2 students that were reading in old Sahitya Class before reorganization scheme was introduced passed the Vidwat Examination in Part I and was appointed as a teacher in this College and as the other who had previously passed the Vidwat Examination in Part I discontinued his study to seek for employment, there was no student available for College Sahitya class when the curriculum of study as per the new scheme was given effect to in August 1918. So two students from other classes were promoted to the above class as already indicated in para 2, and with strenuous effort two more students were induced to join that class. Of these, one left the College to take up an appointment in the Bellary District and one is an official half-time student who is irregular in attendance as he lives in Malleswaram. The remaining two students have sent up their applications for the ensuing Intermediate Examination of the Mysore Vidwat Course. So far as Sahitya Branch is concerned there were only two students before the Reorganization Scheme was introduced in 1918 and two students even in 1920.

4. Thus it can be seen that there is no decline in the strength either in the total number of students or in the number of Sahitya Branch. The question is therefore not "what are the causes for the decline in strength" but it is "what are the reasons that prevent the students from joining the College in greater number to have the benefit of Sanskrit education?"

5. The following are, I think, the main reasons:—

(1) *Abolition of Tarka, Vyākarna, Joytisha and Dwaita Classes*.—There is no choice left to the students to study any subject they like as there is only Sahitya Branch kept up in this College.

(2) *Disinclination of students who are residing in Bangalore to study Sanskrit*. The students of Bangalore City would prefer either English or any other technical branch of study to Sanskrit education which they think is not helpful to earn their bread.

(3) *Difficulty of procuring students from outside who are qualified to join the College class*.

As the standard of study in various grades has been raised, consequently as the students from outside who would join the College classes are expected to have studied Siddhanta Kaumudi, Mukatavali and a few Natakas before they join the College Classes, it has become very difficult to get such students for the College classes.

(4) *Want of facilities for Boarding and Lodging*. There are no facilities here, for feeding the outside students. But the first thing that the outside student expects is whether he can get free boarding and lodging. Even the students of the High School classes who are mostly outsiders, feel keenly this difficulty. It is true that there is provision for feeding fifteen students in the Government Anna Chatram, one meal a day. But this is very inadequate. Those students that go to the chatram are ill fed and they find it very difficult to get their second meal elsewhere. Philanthropy and generosity used to be shown to Sanskrit students by way of giving them food on Vata system, etc., have been dying out.

(5) *Want of some kind of restriction on students for continuance of study in the College classes*.

Now, students who pass the Entrance Examination, quietly leave the College and go to Mysore or elsewhere. As a case of this kind had occurred last year, it was not possible to open the First year class and in fact there is no College first year class now in this College. Again, of the two students that have sent up applications for the ensuing Sanskrit Intermediate Examination, one has joined Vedanta class elsewhere with expectation of getting higher amount of scholarship! Such occurrence should be avoided, otherwise, there may not be at all any chance for the continuance of the first year class and by its turn, the next higher classes will also suffer, and in consequence, complaints for want of strength will never cease to be.

There is also a tendency on the part of the students to continue their study for a few years and to suddenly give it up in the middle and take up any job elsewhere. No doubt, poverty and pecuniary circumstances are mainly responsible for this. Anyhow, it is incumbent not to allow the students to yield to such temptations if any real success will have to be achieved in advancing the cause of Sanskrit study.

(6) *Want of provision for scholarships to students of High School classes*.

This is most important of all other items. For any improvement in the College classes means maintaining sufficient strength in the High School classes which serve as direct feeders, to the College Classes. At present, there is no provision for scholarships to the High School students. It is true, a lumpsum annual grant of Rs. 506-4-0 is provided for this College. But it is not solely for giving scholarships. The heading under which it is provided is "Scholarships, free supply of class books, and prizes to sixty students in the School Department of the College." (Vide G. O. No. 3333-45—Edn. 103-15-7, dated 27th September 1917). During the past two years, the major portion of this amount, used to be utilized for "Free supply of books and prizes" in this College having recourse only occasionally to the balance to be utilized for scholarships whenever there was need for doing so. Thus virtually, there is no provision for scholarships to the school department of this College. Unless boarding arrangements are made to all students, the pressing necessity to give the students of

the High School classes, scholarships at higher rates to cover their boarding charges, will continue and remain. This may not be so important an item in the Mysore College where the students are fed twice a day in the Maharaja's Chattram, but in Bangalore the conditions are quite different. At present, they are being paid scholarships at the rate of Rs. 6, 7 and 8 out of the balance from the College class scholarships and the students complain that those rates are not adequate to meet their boarding charges. Most of them being outsiders if they are not paid at the above rates, they would leave the College and go away. Then the question of continuing the school department also may engage the attention of Government or the public. With its fall, it is but natural that College Department also should suffer. Hence, it is necessary to take all precautions in this respect to avoid all such undesirable and unforeseen evils.

6. The following remedies are suggested :—

(1) In addition to the Sahitya Branch of Vidwat course, some other new branches as far as possible, especially Tarka and Vyakarana may be opened to attract students.

(2) Boarding arrangements to all the Brahmin students of the College, may be provided for.

(3) Those outsiders who are found to be qualified may be exempted from passing the Entrance Examination before they join the College classes.

(4) Wide publication of the facilities obtaining in this college for Sanskrit students may be made and applications called for admission to the College classes, by means of advertisement in the *Mysore Gazette*.

(5) Certain restrictions to confine the students to this college till they complete their College course may be devised. (This is especially necessary in the case of students reading in IV and V classes of the School Department.)

(6) Sufficient provision for the award of scholarships to the students of the High School classes may be recommended to be made. This provision should be at the average rate of Rs. 8 each, to at least fifty students per month.

(7) In conclusion, it may be noted that as the full College course which runs for four years has not yet been completed since the inception of the new scheme in 1918 and as there is only one college class now and three more classes will have to be opened in succeeding years, it is premature, I think, to judge the strength of the college class and to decide on the present insufficient data the fate of the College Department. It can be safely done so at the end of 1922 when all the four classes of the College Department will be at full swing of work and when, I think, there will be more than fifteen students in the College Department. Even if it is to be judged now on the present data alone, the decision should be in favour of the College Department being continued as there will be eight students at least for all four classes of the College Department, taking two for each class as it is now. On this calculation there should be 8 x 12 ninty-six students in the College Department in Mysore, where there are twelve branches of study unlike one Branch as in Bangalore. If this calculation is in favour of Bangalore College, then the question under consideration will fall flat. Again if the benefit of Sanskrit study will have to be thrown open to all alike, then again, there is much in favour of the College Department being continued in Bangalore as it will be necessary to keep the College classes open to those others, who would join them as soon as they are allowed to do so or who would press for it when they complete their High School course and pass the Entrance Examination.

8. On the above two grounds, as well as on sentiment, that the name of the College is associated with the ever remembered name of our benevolent late Maharaja and the College was founded by that great and foreseeing Dewan Sir K. Seshadri Iyer, after frequent and continued requisitions from the Pandits and Public for starting such a one, the question will have to be discussed and disposed of in the interest of Sanskrit itself.

SUPPLEMENTARY NOTE.

The previous note by me, deals with merely the question "What are the causes for the decline in strength in the College Department and what are the remedies to be adopted," and this note gives a definite idea as to the needs of the College. It deals with the question under the following heads :—

(1) Staff.

- (2). Boarding and Scholarships.
- (3) Building.
- (4) Curricula of studies.
- (5) Miscellaneous.

2. *Staff*.—In the College Department there are at present one Professor on Rs. 50—5—75 and two Tutors on Rs. 30—2—50. If the College Department be continued for the reasons explained in the First Note, then the above grades may be raised to Rs. 50—10—100 and 30—4—50 respectively. If it is resolved that some more branches should be opened in this College, then the same scale, viz., one Professor on Rs. 50—10—100 and two Tutors on Rs. 30—4—50 each, will be required for each of such branches.

In the High School and Primary Department, since the present scale is common to both Mysore and Bangalore Colleges, whatever changes may be proposed and whatever additional hands are required for the Mysore College, the same will have to be given to the Bangalore College without any exception.

3. *Staff*.—In the Vedic Department there are now five teachers on Rs. 15—2—25 grade. The grade may be raised to Rs. 25—3—40 and one more teacher on the same grade may be added to teach Sukla Yajurveda Prayoga.

3. *Boarding and Scholarships*.—In the College Department it may be assumed that there will be three students on the average in each of the four classes for Sahitya course. Then twelve scholarships which have been now allowed to this College will just meet the requirement. But if new branches are opened, then some number of scholarships for each of such new branches will have to be provided for. As regards the Primary and High School Departments, there is virtually no provision at present for giving the scholarships as the annual lumpsum grant of Rs. 506-4-0 allotted to this College under the head "Scholarships, free supply of books and prizes," is mainly used for the purpose of supplying books to the students, unlike in the Mysore College where the whole amount is utilized for scholarships alone, as a separate provision for giving prizes, etc., is available there. Even a scholarship of one rupee to each student can be given out of the above lumpsum, the question of boarding being provided to them will rise in forefront. As there are forty-five students in these departments and thirty-eight in the Veda Department and as it is likely that these numbers may go up, the probable number within a couple of years may be taken as fifty in the Primary and High School Departments and fifty in the Veda Department. Out of these, twenty at the most, may be taken as local residents. The remaining eighty, being outsiders, require free boarding. Taking the average cost of Rs. 12-8-0 for feeding each student, the whole cost (apart from the establishment and building and supply of utensils, etc.), will be $80 \times 12-8-0 =$ Rs. 1,000. Now fifteen students are fed in the Government Chattram once a day. The meal which the students get there is not wholesome and hence they very often fall ill. Therefore providing these students with free boarding is one all-important question. Since maintaining a proper strength in the High School and Primary classes will only serve to increase the strength in the College Department in course of time, this question requires careful consideration and favourable treatment. When the boarding question is settled, then there remains only how to provide these students with certain amount of scholarships. Scholarships to twenty local students may be Rs. 100 taking on an average at Rs. 5 each and for the remaining thirty, Rs. 90, at an average of Rs. 3. Taking for granted that about a sum of Rs. 40, can be met out of the lumpsum grant of Rs. 506-4-0, the balance, viz., Rs. 150 will have to be provided afresh. This demand is also reasonable seeing that an additional sum of Rs. 70 has been sanctioned recently for the scholarships of the students in the Primary and High School classes in the Mysore College, while the case of the Bangalore College was totally ignored. Then as regards the Veda students, the present grant of Rs. 90-0-0 will meet the present requirement.

Ways and means to meet the additional cost required may be found out by reasonable adjustment of expenditure of both the Colleges and also by fresh grants by Government.

4. *Building*.—The present building contains only ten rooms and a hall in which twenty classes are being held now. As to hold more than one class in each

room is not conducive to the teaching imparted, it is apparent that more accommodation is a pressing need in this college. It is true Government have recently sanctioned Rs. 8,000 and odd for the repairs of the existing building but not for extension of the building. The question of providing additional building for the Boarding and Lodging of the students and of extending the present building so as to accommodate each class in a single room may be kept in view and estimates for the same may be got from the professional official agency, to discuss and settle the matter in course of time.

5. *Curricula of Studies*.—As this question will be fully dealt with by the authorities of the Mysore College there remains very little to be added now except a few remarks suggested by actual experience.

(1) Standard and course of study for Veda and Prayoga students may be definitely fixed and regularised for this College.

(2) The Vedic students may not be required to pass the Entrance Examination.

(3) Separate teaching in Kavyas and Champus for these students may be provided for, as they cannot cope with the study prescribed for the pure Sahitya students in each class.

(4) In the case of the students who are otherwise qualified, discretion may be given to the Heads of the Institution to admit them to the College Department without their being asked to appear for the Entrance Examination. This course is necessary at least for some years to come till the classes of all the College Branches of study are fully strengthened.

(5) The standard of English knowledge required for the Entrance Examination may be fixed as the standard of Lower Secondary Examination for next five years at least, as most of the Vaidika students, though they are studying in Champu or Nataka classes will have to begin their alphabets in English now. It is hopeless to expect that they will acquire knowledge in English equivalent to that attained by the Matric students.

(6) The knowledge of Sanskrit literature and History of Sanskrit language may be imparted in Kannada to the students of the College classes.

6. *Miscellaneous*.—Under this head, the only requirements of this College are separate annual grant of Rs. 100 for the purchase of books to the Library and Rs. 300 under "Contingency and Miscellaneous," which will include electric charges and the charges for excess consumption of water, etc.

7. In conclusion, if free boarding will be provided to the students then proper establishment and lumpsum initial grant for the purchase of utensils, etc., will have to be provided. Unless the above points are carefully considered and settled once for all, frequent complaints for the needs will not disappear.

8. This note may be considered along with the previous note and also along with note prepared regarding the Mysore College, so that equal treatment as far as possible may be easily bestowed upon both the Institutions.

RESOLUTIONS.

(1)
 (2)

(3) Consideration of a D. O. letter dated 24th December, 1920, from Rajasabhabhushana Mr. Karpur Srinivasa Rao, President of the Special Committee, requesting the views of the College Committee on the following facts:—

- (1) Proposals for improving the staff in the Bangalore Sanskrit College, on the assumption that Non-Brahmins may be admitted into it.
- (2) Separate arrangements required for the Veda and Prayoga classes.
- (3) Facilities for free boarding of students to improve the attendance as is done in Mysore.
- (4) Provision of scholarships to High School students as in Mysore.
- (5) Provision to improve the library, etc.

Resolution—(1)—The annexed statement showing the requirements of the College Staff is appended and it may be sent to the President of the Special Committee.

(2) If Non-Brahmins are admitted, the curricula will require material alterations, and this question will be considered and the views of the Committee communicated later.

(3) Boarding for at least 75 students including a few Veda students is necessary and the cost may be about Rs. 1,000 per month excluding the initial cost. The boarding arrangements may be confined to the Brahmin students but scholarships may be given to Non-Brahmin students.

(4) As there is practically no provision for the grant of scholarship to the students of the School Department, a sum of Rs. 150 per month if boarding arrangements are sanctioned or Rs. 300 per month if they are not sanctioned is necessary. This includes provision for the grant of scholarships to Non-Brahmin students.

(5) As there is no separate provision at present for the purchase of books for the library, an annual grant of Rs. 200 may be provided for and also a provision of Rs. 200 per annum for the annual repairs of the College building and Rs. 50 per annum for furniture are necessary.

A lumpsum (non-recurring) grant of Rs. 15,000 is also necessary for an additional building to be built in the College compound for the location of Vedic classes when they are separated from other classes.

*Mr. A. Mritunjaya Iyer's Note on His Highness the Maharaja's
 Sanskrit College, Mysore.*

This Institution was started in September 1876 under the name of Saraswathi Prasada for the purpose of instructing Brahmin students in Veda and Vedangas.

It is located in the Chattram constructed in memory of His Highness the late Maharaja Krishnaraja Wodeyar Bahadur, 111.

As the Patasala developed in strength, it was elevated to the status of a College. In October 1883, when the affairs of the Palace Charitable Institutions were re-organized, the College was assigned a substantial grant out of the funds to the aggregate of Rs. 25,172-15-11, which became available by the abolition of various feeding Chattrams which had existed in the neighbourhood of Mysore City and the administration of the College and the Charities was entrusted to the Assistant Commissioner in charge of the Palace Establishment and the Assistant Commissioner in waiting on His Highness the Maharaja, who were instructed to obtain the advice of the Palace Dharmadhikaries and secure their co-operation and further avail themselves of the services of Palace servants.)

In October 1892, again the aforesaid sum of Rs. 25,172-15-11 was supplemented by a grant of Rs. 6,500 from the Education Budget, and the total amount of Rs. 31,672-15-11, was distributed between the College and the chattram at Mysore as hereunder :—(Vive G. O. No. 48-50 Muz. F. 25-92, dated 31st October 1892).

College	Rs. 13,722-1-11
Chattram	Rs. 17,950-0-0

In September 1917 the courses of studies and of Vidvat Examinations in the College were revised by the Government on the recommendations of a Special Committee appointed to consider the question of Sanskrit Education in the State; and the College staff was further strengthened. (Vide Government Order No. 3333-45—Edn. 103-15-7, dated 27th September 1917.)

The establishment now costs Rs. 23,326 a year, out of which Rs. 7,223 the amount of the initial allotment from the Chattram savings is still contributed from the Palace Muzrai Funds and the balance of Rs. 16,103 is paid from the Educational Budget.

Consistently however to the original object of the Institution the subjects of study in the College have been confined to the Vedas and *Vedāṅga* Sastras and the staff has been altogether composed of orthodox Brahmin Pandits, and the management is vested in a Committee of which the Assistant Secretary to His Highness the Maharaja (in charge of Palace establishment) is the President, and the Palace Dharmadhikaries and the Muzrai Superintendent are among the members.

In regard to the question of the admission of Non-Brahmins for the College Examinations and for admitting into the College for purposes of study, the subject has been considered by the Government and orders have been already passed.

In April 1899 the Inspector-General of Education forwarded to the College Committee an application from the Adyaksha of the Sanskrit School at Sravanabelagola and enquired if arrangements could be made to exempt the pupils of the school (a Jain Institution) from examination in the Vedas and admit them to the remaining portions of the Dashara Examinations. The Committee having expressed their inability to make the arrangements as that would be inconsistent with the original objects of the Institution one of which is the special advancement of Vedic study; the matter was considered by the Government and it was decided that the students of the aforesaid school might be admitted to the examinations annually held in the College in Sahitya and other subjects excepting the Vedas and the Upanishads. In communicating this decision of the Government, the President of the Managing Committee was informed that His Highness the Maharaja's Sanskrit College at Mysore, as the Central Sanskrit College in the State has to examine such of the students as may be sent up by other Sanskrit Schools for the annual examinations held in the College, and further guide the students in these schools much in the same way as the University does by process of affiliation.

In June 1902 the Inspector-General of Education wrote to the College Committee, requesting that Dorbala Jina Dasa Sastri, a member of the Jain Community and Adhyaksha of the Sanskrit Patasala at Sravanabelagola might be admitted into the Sanskrit College for purposes of study. The Committee regretted their inability to accede to the wishes of the Inspector-General. Jina Dasa Sastry then petitioned the Government in the Muzrai Department; the petition was referred to the Managing Committee and the Committee pointed out that the question of admitting the Jain students into the College for study was a quite different matter from the admission of Jain students as examinees in the annual College Examinations and that the orthodox Brahmin teachers and students of the College had strong prejudices against association with Jain students as teachers or fellow-students.

The question was then discussed in Council by command of His Highness the Maharaja and it was resolved that having regard to the origin and history of the College, the exclusive character of the subjects therein taught and the teachers employed in it, it is inexpedient to disturb the smooth course of progress and admit Non-Brahmin students into the College.

This view having met with the gracious approval of His Highness the Maharaja, Government issued the Proceedings No. 4549-51, dated the 7th April 1906, which still remains as a standing order on the subject. A copy of the order is appended for reference.

No. 17.

G. O. No. 48-50.—Muz. F. 25-92, dated Bangalore, 31st October 1892.

ORDER—His Highness the Maharaja's Sanskrit College at Mysore is maintained out of Muzrai Funds which became available for this purpose as well as for other Charitable Institutions in Mysore, by the abolition, several years ago, of various feeding chattrams with specific grants, which existed in the neighbourhood of the Mysore City. The funds thus available have been supplemented by State Muzrai grants, and they now amount to Rs. 25,172-15-11.

2. In October, 1883, His Highness the Maharaja was pleased to lay down definite principles for the management of the Sanskrit College and the Charitable Institutions in question and to promise that after some experience had been gained of their practical working, final orders would be passed on the subject. During the nine years which have since elapsed, much has been done for the diffusion of a knowledge of Sanskrit Literature in all its branches. Owing to the rapid growth of the College, it is found impossible to maintain, with present funds, the high standard which has been adopted, and it is accordingly resolved to sanction for this College a grant-in-aid from the Educational Budget of Rs. 6,500 per annum. The total amount available for the College and other Institutions in question will thus amount to Rs. 31,672-15-11 as follows:

(b) State Muzrai Grant	12,000	0	0

*Proceedings of the Government of His Highness the Maharaja of Mysore,
dated 7th April 1906 (Muzrai).*

READ.—

Petition Registered No. 1878, dated 10th November 1904, from Dorabala Jina Dasa Sastry, a member of the Jain Community and Adhyaksha of the Sanskrit Patasala at Sravanabelagola, Channarayana Taluk, praying that he may be admitted in His Highness the Maharaja's Sanskrit College, Mysore, for purposes of study.

(2) Correspondence ending with Docket No. 30, dated the 23rd March 1905, from the Secretary to the Managing Committee of His Highness the Maharaja's Sanskrit College, reporting on the above.

ORDER No. 4549-51, DATED 7TH APRIL 1906.

On the representation made by the Inspector-General of Education on a previous petition of Dorabala Jina Dasa Sastry, the Government were pleased to sanction in January 1900, the admission of Jain students of the Sravanabelagola Sanskrit Patasala to the annual examinations of His Highness the Maharaja's Sanskrit College at Mysore in Sahitya and other subjects excepting the Vedas and the Upanishads. Several students of the Sravanabelagola Sanskrit Patasala accordingly appeared for and passed the Mysore Sanskrit College Vidyanthi Examinations between the years 1900 and 1904.

2. The petition of Dorabala Jina Dasa Sastry, a member of the Jain Community, is for his admission into the Sanskrit College at Mysore, to enable him to prosecute his studies there. With regard to this, the Government observe that His Highness the Maharaja's College at Mysore, was originally started for the purpose of instructing Brahmin students in the Vedas and Vedangas, that the staff of Pandits who are all orthodox Brahmin Pandits are averse to the admission into the College of any, but Brahmin students, and the managing Committee of the College deprecate the innovation applied for. Having regard therefore, to the origin and history of the College, the exclusive character of the subjects therein taught and the teachers employed in it, the Government consider it inexpedient to disturb the smooth course of progress by admitting Non-Brahmin students into the College. The petitioner will therefore be informed that the Government of His Highness the Maharaja regret their inability to comply with his request.

No. 18.

Mr. S. P. Rajagopalachari's Note on the improvements needed in the Maharaja's College, Mysore.

The object of this note is to set forth as briefly as possible the improvements needed, immediately and in the next few years to come, in the Maharaja's Sanskrit College, Mysore. These improvements may be classified under the following heads, and each point dealt with separately:—

1. Staff. 2. Buildings. 3. Boarding arrangements. 4. Course of studies. 5. Other matters of a miscellaneous nature.

The following statement shows the subjects now taught in the College and the teaching staff entertained:—

No.	Subjects	Number of classes	Present staff
1.	Veda Bhashya	Nil	One Professor.
2.	Yagnika Prayoga	Old Vidwat, Part I & II	Nil. (Veda Bhashya Professor is teaching.)
3.	Purva Mimamsa	Intermediate, I	One Tutor only.
4.	Dharma Sastra	Old Vidwat, Part I	Do.
5.	Jyotishha	1. Intermediate, I 2. Old Vidwat, Part II	One Professor only.
6.	Navina Tarka	1. Intermediate, I 2. Old Vidwat, Part II	One Professor and one Tutor.
7.	Prachina Tarka	1. Intermediate, I 2. Old Vidwat, Part II	Nil. (Navina Tarka Tutor is teaching.)

No.	Subjects	Number of classes	Present staff
8	Advaita Vedanta	1. Intermediate, I 2. Old Vidwat, Part II 3. Mahavidwat	One Professor only.
9	Visistadwaita	1. Intermediate, I 2. Old Vidwat, Part I	Do
10	Dwaita Vedanta	1. Old Vidwat, Part I 2. Mahavidwat	Do
11	Vyakarana	1. Intermediate, I 2. Old Vidwat, Part I 3. Dō II	Do
12	Sahitya	1. Intermediate, I 2. Dō II 3. Final	One Professor and two Tutors.
13	Itihasa and Purana	Nil	Nil.

The present number is hardly sufficient to cope with the work, and the following Professors and Tutors are needed immediately:—

One Professor for Prachina Nyaya
Do Mimamsa
Do Purana
Two Tutors Vyakarana
Three Tutors the three Vedantas
One do Tarka
do Jyothisha.

This addition to staff of the above will mean an additional monthly expenditure on the average of Rs. 577-8-0. *Vide Appendix A.*

In the course of a few years classes will have to be opened for all the thirteen branches of Sanskrit learning, sanctioned to be introduced into the College. When it is done, there will arise the need for the services of 13 Professors and 26 Tutors, calculated on the basis of one Professor and two Tutors for each of the branches. There are at present 8 Professors and 5 Tutors and, as requisitioned above, 3 more Professors and 7 more Tutors will have to be appointed early next year. Hence, after these appointments are made, within the next few years, 2 more Professors and 14 Tutors will be required.

Regarding the grades of the Professors and Tutors, it may be stated that the present grades of 50—5—100 and 30—2—50 for Professors and Tutors, respectively, may be changed into 50—10—100 and 30—4—50, thus effecting a reduction of the period for reaching the maximum of the grades from 10 years to 5 years. The average increase per month involved in this change affecting the existing staff will be Rs. 100. *Vide Appendix B.*

It may be added that the opening of classes for the pursuit of studies connected with the Maha Vidwat Course is depended upon sanction being accorded to the entertaining of the staff as requisitioned above.

Similarly, the pay and grades sanctioned to some of the Assistant Masters of the High School Department are not sufficiently attractive. Hence the need for changing the grades 25—1—30, 20—1—25 and 15—1—20 into the grade of 25—13—40 and thus render them all uniform.

In the course of a couple of years, there will be the need too for the services of a competent English Graduate, preferably a Science and Sanskrit man, who will have to take up the teaching of Elementary Science in the High School classes, and he will have to be placed in the grade of 75—10—125. For details of cost as per present scale and proposed scale. *Vide Appendix C.*

2. *Board Office Establishment.*—Much of the work transacted in connection with the Board of Sanskrit Studies and Examinations in Mysore being of a technical character, and being also of an onerous nature, an Assistant, who is well versed in many of the branches of Sanskrit learning, having at the same time a sufficiently good knowledge of English, is always to be employed. And, unless the appointment carries with it an attractive salary, no good and competent men will be forthcoming. Hence

arises the need for making the appointment a graded one, viz., 45-3-60. In addition to this, there will soon be the need for the services of an additional clerk on at least Rs. 25 to cope with the ever increasing work connected with the Board. *Vide Appendix D.*

3. *Library and Reading Room*.—After a couple of years the need may arise for engaging the services of a separate Librarian on Rs. 30, of an Attender on Rs. 15, and of a peon on Rs. 8 making up a total of Rs. 53 in all. The excess of expenditure over that at present, involved in the change, will thus be Rs. 53. *Vide Appendix D.*

II. *Buildings*.—Government have recently accorded administrative sanction to certain works of improvement to the college building, including the reconstruction of a part of the existing hostel at a cost of about Rs. 19,000. In addition to this, the other improvements needed are:—

(1) Electric installation in one of the three main blocks of the College and also in all the students' lodgings attached thereto.

(2) In view of an increase in the number of classes at no distant date, additional accommodation will have to be provided for. This may to some extent be effected immediately, and without any heavy expenditure, by putting up a stair case in one of the verandahs of the main blocks of the College and connecting the roofs of the three blocks by means of bridges made to run in the intervening spaces. If this should be effected, the small rooms, enough for class work, will become at once available.

(3) If the strength of the College increases rapidly, more accommodation will be required and this can be done by putting up an upper floor to the building, as was once contemplated.

III. *Boarding arrangements*.—There are nearly 80 students in the Students' Quarters attached to the College buildings. To keep a strict watch over the conduct of the inmates, to supervise their work, and to guide them properly in their studies, are extremely important, and such onerous work can be entrusted only to a responsible Professor or Tutor of the College, as is being done in similar institutions of the Province. It is not, perhaps, too much to say that the question of residential quarters for the Superintendent may be taken in hand.

One of the Resolutions of the Special Committee of Sanskrit Education appointed by Government in their Order No. 3333-45—Edn. 193-15-7, dated 27th September 1917, was:—

(i) That in the College Department, all outside students be fed, arrangements if possible, being made for the common residence, for purpose of discipline, etc.

(ii) That to each student who is fed, an allowance of from one to three rupees a month be given for books, clothing and other contingent expenses.

(iii) That scholarships of from rupees four to ten, according to merit, progress and poverty, be given to all other students.

Government have given their general approval of the above Resolution embodied in the Report of the Special Committee, and in their order referred to above they say

(i) "That students of the Primary and Secondary Departments should be encouraged by being given small scholarships and prizes and by a free supply of books to a certain percentage of students."

(ii) "That students of the College Department should be given such stipends, as will cover their boarding charges and contingent expenses."

In accordance with the Resolution of the Committee and the sanction accorded by Government thereto, facilities are being afforded to students since the date of order. But the help that is being extended to them is only in the shape of scholarships. And the inconvenience now being felt in this matter is that most of the students in the College find it very difficult to make arrangements of their own for their boarding. Many students, particularly those who come from outside, find it hard to provide themselves with a healthy meal and there are specific instances in which they have fallen seriously ill and have even forsaken the studies and gone away. Hence, it seems desirable that some suitable arrangements should be made, immediately, for feeding those students of the College who cannot afford to make arrangements of their own. Enquires relating to the subject go to show that if proper arrangements are made for feeding, many more students, than has been the case till now, will seek admission into the College and thus the strength of the College will increase.

As to students of the Primary and Secondary Departments, they must also have some arrangements made for them in regard to their boardings. Some fifty of them are now being fed in the local Choultry, and Ramanujakootam, but the remaining others are denied that privilege.

It is quite essential that the Sanskrit College should have a sufficiently large number of students in its Primary and Secondary Departments, since it is they who later on constitute the students of the College Department. If the number of students in these Departments should fall, the number in the College Department must necessarily fall also. Hence arises the necessity to look to the needs and welfare of the students of these Departments in particular.

Taking the present strength of the College into account, we find, roughly, that there are—

i. In the College Department	75 students
ii. In the Primary and Secondary Departments	50 do
iii. In the Veda Department	50 do
Total	175

Of these 175 in all we may take it that 50 are being fed in the Chattram and Ramanujakootam. We assume that all these 50 belong to Primary and Secondary and Veda Departments only. Hence the remaining 50 of the above Departments, and 75 of the College Department are to be provided for. We have statistics to show that of the 75 College students about 25 are, and will be, local students, who would naturally prefer to have boarding arrangements of their own. Some twenty at least of the students of the Primary and Secondary Departments will be from the locality. Hence we may say, finally, that arrangements are necessary for feeding 50 students of the College and 30 students of the Primary, Secondary and Veda Classes, totalling in all 80 students. In view of an increase in the number of students in the immediate future we may have to arrange for the boarding of at least 100 students.

Now to come to the financial aspect of the question: We have assumed as above that we shall have to feed immediately 80 students. Taking into account the prevailing rates in the market, it may safely be calculated that we require on the average Rs. 12 per student, per mensem, which means an outlay of Rs. 80×12 or Rs. 960 per month. Further, the fifty students of the College Department should be given stipends of Rs. 3 on the average, for the purchase of books, etc., and the students of the two other Departments Rs. 1 each, calculated on the same basis. These amounts will come to $50 \times 3 + 30 \times 1$ or $150 + 30$ or Rs. 180. The total amount will be $960 + 180 = 1,140$. Now the question arises: How are we to meet this expenditure?

When 50 students in the College Department are fed, we can charge them on the average Rs. 9 which means Rs. 50×9 or Rs. 450.

When 30 students in the other departments are fed we can charge them on the average Rs. 2½ which means Rs. 75.

Therefore the total amount realised in this way will be Rs. $450 + 75$ or Rs. 525.

Therefore our deficit will be Rs. $1,140 - 525 = 615$.

Some portion of this deficit may be made good as follows:—

1. Savings from Mysore College Scholarships 150
2. Savings from Bangalore College Scholarships 50

Total 200

The deficit even after this will be Rs. 415 or say Rs. 400. Government may be requested to make a special hostel grant of Rs. 400 to make good this deficit as hostel grants are being made elsewhere.

IV. Course of studies—The course of studies prescribed for the several classes of the College was revised in the year 1917 and a syllabus was issued as per Government Order No. 3333-45—Edn. 103-15-7, dated 27th September 1917. Two years experience of the working of the syllabus unmistakeably pointed out that the burden of the student preparing himself for the examinations, according to that syllabus, was rather heavy and therefore recourse was had in 1919 to the effecting of a revision of the syllabus so as to minimise the work of the student, without, however, curtailing

the course of studies in such a way as to diminish the cultural value of Sanskrit studies. Now that the College has worked for a full year according to this revised syllabus of the year 1919, it has become apparent that the syllabus is all right but for one or two slight modifications yet to be made and that with these modifications indicated below the syllabus will be quite workable, requiring no change of a serious character for many a year to come.

The main difficulty in the working of the new syllabus is that Tarka is ushered in too early and Grammar too late. The result of these changes has been twofold; In the first place students find it hard to master even the rudiments of Tarka while they are yet in the lower rungs of the ladder, viz., the Secondary Department, and in the second, they find it extremely difficult to master all the fine intricacies of Grammar within two years, since the subject is introduced to them only in the Secondary IV Class and they are called upon to finish the whole course in Grammar in Secondary V. To overcome this difficulty some re-adjustments as casually indicated below will be necessary, without however, bodily changing, at any stage, the course of studies already prescribed. The only conspicuous changes in the syllabus will be—

- (i) The shifting of Tarka Sangraha to a higher class.
- (ii) The study of Mukta-vali in two years instead of one.
- (iii) The omission of Dinakari in the College classes.
- (iv) Providing one more year to the study of Grammar.
- (v) Omission of a critical study of the Sastras in the lower stage of the College course.
- (vi) The introduction into the scheme of a higher course of studies in English pertaining to the mastery of the language, so that pupils, studying English in the Sanskrit College, may have a working knowledge of this foreign tongue.
- (vii) Replacing some Mathematical portions in Jyothisha by Phala and Mu-hurta Bhagās.
- (viii) Omission of science in the earlier stages of the Secondary course.
- (ix) Omission of the study of the History of Sanskrit Literature in the Final course of the Vidwat Examinations.
- (x) The shifting of studies of a critical character to the Mahavidwat course.

It may perhaps become necessary very soon to exempt students of Vedic Recitation from passing the Entrance Examination in Sanskrit, as students, capable of doing equal justice to both Sahitya and Vedas, may not be forthcoming, and enforcement of the rule to the effect, that each Veda student claiming the title of Vidwan must have previously passed the Entrance Examination, may result in the reduction considerably, of the number of students taking up Vedic Recitation.

Note.—A Special Committee may be constituted to work out in detail the question of changing the syllabus somewhat on the lines indicated above.

It may be added that a Sanskrit student must be made to feel that, when he comes out of his College, he will have no trouble in providing himself with the bare necessities of life at least. Unless this is guaranteed, no amount of pressure, no amount of persuasion will be of any avail. But, it is hoped, that the curriculum of studies which includes in itself subjects as already prescribed, with certain modifications, will make the Sanskrit students really fit for the duties of a public servant and a public citizen, equally with a student who has pursued his studies in English to attain the same end.

Under this head it is enough if mention should be made of the need for the opening of classes, especially intended for the benefit of students in the local English schools. This provision does not involve any extra expenditure, while it satisfies the desire of some students who want to have some knowledge of Sanskrit, so that it may be of great use to them in the later stages of their life. Students, seeking admission into these classes, will be part-time students only, some others, desirous of devoting an hour or two for the study of the elements of Sahitya, Tarka, Vedanta and so forth. This system, if introduced and worked on the right lines, may fairly be expected to infuse into the minds of outside students also a sort of love for the sacred Sanskrit lore.

NO. 19.

*Note by Mr. Mritunjaya Iyer improvement, needed in the Sanskrit
College, Mysore.*

The proposals of Mr. S. P. Rajagopalachari are:—

- A. Increase to the staff of Sastra Professors and Tutors.
- B. Doubling the annual increments of salaries of the Professors and Tutors, so as to admit of the maximum being earned in five years instead of in ten years.
- C. Addition to the staff for English General Instruction (two years hence).
- D. Revision of the establishment of the office of the Board of Sanskrit Studies.
- E. Increase to the Library and Reading Room Establishment (two years hence).
- F. Addition to the accommodation and installation of electric lights in the College premises.
- G. Boarding arrangements for students.
- H. Revision of the Courses of Study.

Of the above (D) Board Office establishment is a matter which does not concern the College proper. I see no need to discuss it here.

Proposals C and E relate to probable requirements two years hence and they may well be reserved for the present.

F. *Accommodation.*—The question of improving the accommodation deserves favourable consideration. It will be useful not only to the College but also to the public, as the additional accommodation proposed will also serve as a hall for occasional cultured Conversazioni and Public Lectures by Pandits and Oriental scholars.

G. Free boarding has certainly its own advantages over the grants of scholarships in cash. But in the deep-rooted sectarian differences among the Orthodox Brahmins, I am not confident that common dining halls, even if separate for the three main sects, will be appreciated even by those for whom it is intended and what is more, worked smoothly by officials placed in charge thereof. I shall be really pleased if any misgivings in this respect can be belied by actual work. I have therefore no objection to the Boarding house being tried as an experimental measure for a year or two. Even here I would suggest that the acceptance of cash stipends or free boarding in the alternative be left to the option of the students even in the case of those who have no houses in the City.

In regard to the financial aspect, I find that very recently in June 1920 the Government have sanctioned Rs. 1,135 a month on account of scholarships to the students of this college as against Rs. 622-5-0 previously sanctioned. This enhanced provision must be sufficient to meet the cost of the boarding on the lines proposed if only that can be worked successfully to the satisfaction of the students. This amount may, for budget purposes, be taken as the standard allotment subject to the understanding that if at any time the provision be exceeded by reason of increasing in the number of students fed or of a rise in the market prices of provisions, special sanction be obtained for the amount of excess expenditure so actually incurred.

As regards the staff (A). In para 31 of their report, of January, 1916, the Special Committee have said as hereunder:—

"In accordance with these requirements, the Committee have proposed such staffs for the two colleges as they have deemed adequate for the present and for sometime to come. Provision is made for a Professor of highest qualifications in each of the important special subjects with an additional teacher where necessary and for only teachers of a junior grade where such alone will do. As students increase in number, more teachers of a junior grade may be added to the staff. Detailed statements of the proposed staff of the two colleges are given in Appendix H."

These proposals were accepted by the Government and accordingly there are on the college staff eight Professors and five Tutors.

It is now proposed to strengthen the staff by three more Professors and seven more Tutors.

The following statement shows the strength of the several Sastra classes in 1916-17 and now and also the teaching staff as now existing and additions thereto proposed:—

Subject	1916-17		1920		Present		Proposed	
	No. of classes	No. of students	No. of classes	No. of students	At staff	At staff	Pro.	T.

In furnishing the information about the strength of the College, the Principal writes:—

It may be stated that the three present classes, viz., Secondary III, IV, and V which we now regard as belonging to the High School Department were considered three years ago as College classes proper. Hence the disparity in the numbers then and now must be considered with this point in view.

Whatever it be, it may be safely said that on the whole the students have not increased in number so as to justify a recommendation for an addition to the staff of teachers on that score. But in an advanced institution like the Sanskrit College, it will be futile to attempt to regulate the professorial staff solely on considerations of the numerical strength of the students as a whole. For, there should necessarily be a competent professor to teach every subject of advanced study even if that should be taken up only by a single student. In fact, even in English Colleges, students drop off as the standard of study advances and hardly one or two hold out to the end and finally go up to the highest class.

Considering the requirements of the College in this view it will be seen that there are no Professors to teach Purva Mimamsa, Dharma Sastra, Prachina Tarka though there are students actually studying these subjects and they are all advanced subjects which can be satisfactorily taught only by Professors who have made a special study of the respective subjects and attained a high degree of proficiency therein.

Mr. Rajagopalachar's proposal for the Professor for Prachina Nyaya and one Professor for Mimamsa needs no further apology. But his proposal to appoint a Professor of Purana and Itihasa is not convincing as there are no students studying the subjects at present. I would therefore modify his proposal in this respect and suggest the appointment of a Professor for Dharmasastra which has already two classes with five students, reserving the professorship of Itihasa and Purana for consideration later on when students come forward to make a special study of the same.

The appointment of two Tutors for Vyakarana and one for Tarka has also my ready support, in view of the large number of students studying each of the two subjects.

Turning to Jyotisha, there are only 3 students and I fail to see the need for a Tutor in addition. If, however, the course of study is improved on certain lines suggested by me *infra*, the Professor will then certainly require some help and the appointment of a Tutor or two may then be considered.

Lastly, it is proposed to appoint one Tutor for each of the Vedanta classes. Both in the Advaita and the Dvaita section there is a student of the Maha Vidwat course. In regard to these Mahavidwat students, the Special Committee in para 26 of their report of January 1916 have stated as follows:—

"The students will prosecute their Post-Vidwat Studies with the aid of the College Library which will have to be equipped with all the necessary books of references and under the guidance of the Senior Professors who will have occasionally even to teach them those portions which cannot otherwise be mastered. These Fellows may also teach the subjects of their special study for an hour or so every day, to the College classes under the guidance and supervision of the Senior Professors."

These Mahavidwat students therefore may well help the Professors by teaching their juniors just as students of Master of Arts attending English Colleges do. The appointment of a Tutor for each of the Vedanta Classes may therefore be reserved too.

Mr. S. P. Rajogopalachar's proposals to improve the grades of the salaries of Professors and Tutors are certainly entitled to much weight. But in view of the fact that the grades were sanctioned only recently 3 years ago, I would suggest a slight modification as below:—

Professors	50—5—70	4 years	7 years
	70—10—100	3 years	
Tutors	30—2—38	4 years	7 years
	38—4—50	3 years	

Several of the Professors and Tutors might have already had three increments under the present grades, and after they get the fourth increment shortly, their future prospects might be improved as above.

Lastly referring to the proposals for a revision of the curricula of studies, I beg to point out that the curricula sanctioned in the Government Order of 27th September 1917 were revised in July 1919 on the recommendation of the Board of Studies made with a view to lighten the course of studies of the students. I append a printed copy of the Government Order on the subject.

Now it is represented that after a year's working it is found that "Tarka has been ushered in too early and Grammar too late." This inconvenience has been the result of the revision recommended and accepted by the Government just a year ago.

To set matters right again, certain modifications are now proposed. I think it will be more appropriate to leave the proposals in this respect to be considered by the Board of Sanskrit studies as a matter falling within their functions under para 16 (iv) of the Government Order of 27th September 1917.

I therefore refrain from discussing the proposals here. I however wish to say a few words regarding the Vidwat course of Jyotisha. Here the proposal to replace some mathematical portions by Phala and Muhurta Bhagas is in my humble opinion, a retrograde step tending to defeat the object of the study.

"Astrology is a science and astrologers are frauds" is a common saying which is only too true in actual experience. The first portion is a recognition of the scientific perfectness of the investigations and mathematical calculations of the ancient Hindus in the Field of Astronomy and Astrology, while the 2nd half of the saying is an expression of the bitter experience which several have had at the hands of astrologers, who are absolutely ignorant of the calculations of Horoscopic chart and yet manage to successfully play off their wits on credulous seekers of their fate more or less in the same way as a medical quack plays his game with sufferer of disease and aspirants for health.

The Institution of a Vidwat course of study in Jyotisha carries with it the responsibility of confirming the scientific basis of Astrology and of blotting out the odium attached to astrologers as frauds. To do justice to this responsibility, it is very essential to so frame the course of study as to assure a perfect knowledge of the science in all its branches in the proficient passed out with Vidwat Diploma under the seal of the College.

Astrology is divided into four parts:—

1. Ganita,
2. Muhurta,
3. Prasna and
4. Phala.

Of these Ganita is the essential basis common to all the other three which are only so many special branches of astrology each independant of the others. To do away with the Mathematical portions of the study is to dispense with the foundation in the case of a building. If astrologers prove frauds in spite of their profound honest study of the science, it is because they fail to assure themselves of the correctness of the Horoscopic chart placed into their hands either through ignorance of

Mathematical calculations or through evasion of the task which sometimes entails long and laborious figure work. The result is that the forecasts based on wrong data of Lagna, Native star and planetary positions miserably fail, carrying with it a wholesale condemnation of all astrologers as frauds.

As a practical example I may refer to the fact that every astrologer will claim to have studied Bhrahat Jataka a recognised standard work of the science; and yet when a horoscope is placed into his hands, he avoids dealing with it in accordance with that text, for the simple reason that the very determination of the order of Dasas and Bhukties as expounded in Bhrahat Jataka entails an intelligent examination of the relative strength of the several planets based on laborious calculations of their 'Bhavastanas' and 'Shad Balas'; and this is a task which very few will venture to enter upon without a strong grounding in the mathematical methods of Sripathipaddathi a short but extremely terse exposition of the science almost in a nut-shell.

It is therefore suicidal to reduce the mathematical portion of the science which in the manner handled by the Hindu scientists are all easily worked out under the first four rules of arithmetic. It does not require a superior knowledge of mathematics to master the rules of calculations in this respect, though a high degree of proficiency in advanced mathematics is essential to understand the rationale of the rules; but the ordinary student of Astrology may rest content with accepting the rules just as the student of elementary arithmetic is made to accept without question the rules taught to him for converting simple and recurring decimals into vulgar fractions and *vice versa*.

I would even go a step further and submit for consideration the necessity for giving to the students of Jyotisha practical lessons in the observation of the positions of stars, constellations and planets at nights with the naked eye and through the medium of a telescope. The equipment of a small observatory just for the purpose of this study will not be prohibitively costly; on the other hand it will be a valuable help in the way of inducing an intelligent study of the science both by the students of the college and by the students of Western Education.

I beg leave to take this opportunity for making a few suggestions in regard to the curriculum of study in the High School classes of the College.

The pre-collegiate course now comprises a course of 2 years' study commencing from the Preparatory standard; and the students will at the end of this course have acquired knowledge as hereunder:—

Sanskrit:—Sahitya Nataka standard with elements of Alankara.

Nyakarna Preliminary portions of Siddhanta Ka'madhi.

Tarka Muktavali.

Mimamsa Artha Sangraha.

General select portions of other subjects according to the subject of special collegiate study.

English, Matriculation standard.

Science, Elementary portions of Physical and Natural Science.

History, outlines of Indian History.

Geography, outlines of the World.

Arithmetic, Vulgar and Decimal fractions and Practice.

Equipped with such learning, the student takes up the special study of higher Sastras. Here he does not pursue the study of English and yet he is expected to master the History of Sanskrit Literature and Language, a study which even eminent scholars of Oriental and Western learning take years to grapple. The subject is one which requires a scholarly knowledge of English and Sanskrit Literature in all their branches and also advanced special study of History ancient and modern and Ethics of the Greek and European schools of Philosophy. It may therefore be omitted as proposed.

Turning to the secular subjects, the standard of English up to the Matric standard may be said to be high enough; but the equipment in the subjects of general knowledge, Mathematics, History and Geography and Science is too poor to be of any help to the student in after life. The result is that while the knowledge of English soon wears out in the intensive and exclusive study of Sastras in the Collegiate classes, the little of Arithmetic, History and Grammar taught in the earlier years of the Pre-Collegiate course is almost forgotten in a very short time. It is therefore no wonder that when the student comes out of the College, he finds himself hopelessly

stranded without the least prospect of a public employment all for want of a sufficient knowledge of the secular subjects associated with the practical work of life.

I would therefore beg leave to suggest that the Pre-Collegiate course be made more useful by a revision of the course of study providing for Elementary Mathematics, History and Geography up to the School Secondary Leaving Certificate standard so that the student may find himself placed on a par with those similarly equipped in English schools, at least for purposes of eligibility to the service and other privileges attached thereto.

To provide for this necessary instruction in English and Secular subjects, the lessons in Sanskrit proper may be curtailed by eliminating the study of Siddhanta-Kaumadi, Tarka Mimamsa and other optional subjects prescribed for standards IV and V of the Secondary course.

At present the rule seems to be that a candidate seeking admission into any of the College classes should have necessarily passed the College Entrance Examination. This restriction is hard to work in practice. In the first place it is not possible for any student of the Vedas (Recitation) to go through the whole course of Sanskrit language, English and General subjects all together. Even in the case of Sastra students, several hail from outside and it is not possible to expect them to have studied English and other subjects according to the course prescribed here.

I would therefore suggest that in the case of students of the Vedas studying in the Pre-Collegiate classes it will be sufficient if in addition to the Vedic recitation they undergo the course in Sanskrit Kavya to the exclusion of English and Secular subjects while students seeking admission into any of the college classes Veda Bhasya or Sastras might be made to pass an Entrance Examination only in Sanskrit Kavya of the standard prescribed unless they produce certificates or other evidence of already possessing such knowledge of Sanskrit.

The preliminary and secondary classes will still be useful for the education of the local students; the study of English and secular subjects in the secondary course may be made optional.

The secondary course will then be as follows :—

- | | |
|------------------------|--|
| 1. Veda students. ... | Sanskrit and Vedic Recitation. |
| 2. Sastra students ... | Sanskrit and the preliminary portions of Tarka, Vyakarana and Mimamsa. |
| 3. General students .. | Sanskrit and English subjects (<i>viz.</i> , Language, Mathematics, History and Geography). |

The course in Sanskrit may be common to all the three sections. The curriculum may be as it stands at present deleting only the compulsory study of Tarka (Muktavali), Vyakarana (Siddhanta) and Meemamsa which may be made the subject of second study for the students of special Sastras.

The course in English and secular subjects may then be conveniently recast as to run on parallel lines with that prescribed in the English Schools. It may be made common to both the Sanskrit colleges so that the students passing the Entrance examination may be qualified either for entry in the service on a par with the School Secondary Leaving Certificate candidates or to take a college course in Sahitya and English in the Bangalore Sanskrit College.

I do not wish to be understood as shutting out the students of Veda and Sastras from the study of English. By all means let them also attend the English classes if they wish to do so and can study the language without prejudice to their other studies. But I fear it will be attempting too much; and all the subjects might suffer. In the case of Sastra students desiring to acquire a knowledge of English, the more effective way will be to give the students of the Vidwat course the option of attending the English lessons in the secondary classes confining their study to the language and one other subject (either history and geography or mathematics) which latter may be easily mastered by them through the medium of the Vernacular. Such Vidwat candidates will be able to pursue a post Vidwat course in the History of Literature, Philology, Ethics or any other subject associated with eastern culture and to supplement the study by researches of their own.

I content myself for the present with submitting for consideration the main outlines of my proposals as above leaving the details to be developed by a Sub-Committee if the outlines scheme be viewed as deserving of further consideration.

CHINTAMANI TOWN MUNICIPALITY.

Notice.

Notice is hereby given to the inhabitants of the Chintamani Municipal area that the Municipality desire to impose taxes as mentioned below:—

Any inhabitant of the Municipal area objecting to the proposed taxes and the following bye-laws may, within one month from the date of this notice, send his objections in writing to the Municipal Office.

Rules relating to the assessment, collection, remission and refund of Municipal taxes in the Chintamani Town Municipality under Section 46 (e) and (j) of the Municipal Regulation, VII of 1906:—

Taxes and exemptions.—The Municipal Council shall levy the taxes and recognise the exemptions specified in Schedule (A) hereto annexed. The taxes shall be payable on the dates indicated against them, respectively, in column 6 of the schedule.

How taxes may be collected.—The taxes imposed by the Municipal Council may be collected by the Municipal Council either departmentally by their own agency or otherwise, as may from time to time seem expedient to them, but octroi duty shall be collected departmentally only until further orders.

Remissions.—Subject to the sanction of Government, remissions may be made to any extent by the Municipal Council in cases in which the Council is satisfied that the recovery of the amount proposed for remission would entail undue hardship on a poor man and in cases falling under Section 69 of the Regulation.

Claim for refund when not entertainable.—No claim for refund of any sum paid to the Municipal Council on account of any tax other than octroi shall be entertained unless application therefor is made in writing within ninety days after the expiry of the year to which the claim relates.

Payment of refund when not to be made.—No sum shall be refunded unless the person entitled to it applies for payment within three months of delivery to him of notice of the refund having been duly authorised. In such notice the period within which the refund must be demanded shall be always stated.

Order for payment of refund to be written on the billform.—Every order for payment of a refund shall be written on a bill in the form given in Schedule B and signed by the Vice-President.

Refund on account of vacancy of buildings and lands.—Refund on account of vacancy of the tax on buildings and lands paid in advance shall be regulated in the same manner as remissions under Section 69 of the Regulation.

Refund of amount paid on account of vehicle tax.—Where the tax due in respect of any vehicle has been paid for any half-year, the owner or the person in charge thereof shall be entitled to a refund of the sum paid.

(a) If he has owned or been in charge of the vehicle for not more than thirty days in the half-year.

(b) If the vehicle has been under repair or standing at a carriagemaker or cycle dealer during the whole of the half-year, provided that due notice in writing shall have been given to the Municipality of the vehicle having been disposed of or having ceased to be used.

Method of calculating liability to tax.—When a person has owned or had charge of two or more vehicles of the same description, each at different periods in one half-year, he shall be deemed to have owned or had charge of one vehicle only as the case may be for the aggregate number of days in the said two or more periods.

Vehicles changing hands.—If a half-year's tax has been levied in respect of a vehicle, no further tax for the same half-year shall be leviable in respect of the said vehicles, if it changes hands during the currency of the said half-year.

Liability of transferee of rates and cesses.—When any premises shall have changed hands, the transferee shall be liable to the Municipality for all arrears of rates or cesses due in respect of the said premises.

Persons liable in case of death.—In the event of the death of any person, whose name shall have been entered as owner in the assessment list under Section 63 of the Regulation, the person to whom the title of the deceased shall be transferred as heir or otherwise shall give notice of such transfer to the President, who, on being satisfied shall enter the name of such transferee of title as owner in the assessment list. In case of two or more persons preferring rival claims to the same property, the President may either pass a decision himself or refer the question for the decision of the Managing Committee who may recognise any claimant or refer the claimants to a Civil Court as they think fit. If at any time after a decision by the President or the Managing Committee as the case may be any person produces probate, letters of administration, a decree or other order of court, declaring such person as heir of the deceased, the name of such person as owner shall be substituted in the assessment list for any other name that may have been entered.

Entry in assessment list on Sub-Division.—Where any property is sub-divided on application being made to the Municipality intimating such sub-division, the Municipality shall unless they see any objection to the same, cause such sub-division to be entered in the assessment list as, if it was separate property.

Suspension of process for recovery when notice of vacancy received.—When a notice of vacancy has been received under Section 69, process for recovery of dues of the current year or instalment period may be suspended till final orders are passed on the notice.

ORDER No. L. 6944-7003—MED. 101-21-2, DATED 27TH MAY 1922.

Considering the cost of diet and careful nursing and treatment required in the case of Tuberculosis patients, Government agree with the Senior Surgeon in thinking that the ordinary rates of fees leviable in the said Sanatorium should be on the same scale as the one sanctioned for the Minto Ophthalmic Hospital, Bangalore, in the Government Order read above, and they accordingly direct that the following scale be adopted—

PART III.

Legislative Measures and Rules thereunder.

NOTIFICATIONS.

Under Rule 31 of the Rules for the conduct of business of the Mysore Legislative Council, the accompanying Bill further amends the Mysore Registration Regulation, 1903, and is published for general information with the statement of objects and reasons.

C. ABDUL GHANI,
Secretary.

Under Rule 31 of the Rules for the conduct of business of the Mysore Legislative Council, the accompanying Bill further amends the Mysore Registration Regulation, 1903, and is published for general information with the statement of objects and reasons.

1. In para 1 of Section 88 of the Regulation for the words "or for the Post-master General or the Deputy Post-master General of Madras" the words "or for the Post-master General of Madras or any officer nominated by him in this behalf" shall be substituted.

2. In para 2 of the same section for the words "or Deputy Post-master General" the words "or any officer nominated by him in this behalf" shall be substituted.

STATEMENT OF OBJECTS AND REASONS.

Under Section 88 of the Mysore Registration Regulation, 1903, the Post-master General of Madras or the Deputy Post-master General is exempted from appearing at any registration office in any proceeding connected with the registration of any instru-

ment executed by him in his official capacity. It is now suggested that the exemption may be extended to the Divisional Superintendent of Post Offices and the Post-master, Bangalore.

In order to avoid further requests of this nature, it is considered desirable to amend Section 88 as to extend the exemption to any officer nominated by the Post-master General in this behalf.

Draft Bill is accordingly prepared to give effect to this.

No. 462—L.C., dated 18th April 1922.

Under Rule 31 of the Rules for the conduct of business of the Mysore Legislative Council, the accompanying Bill further to amend the Negotiable Instruments Regulation, 1917, is published for general information with the statement of objects and reasons.

By Order,

ABDUL GHANI,

Secretary,

Mysore Legislative Council.

BILL FURTHER TO AMEND THE NEGOTIABLE INSTRUMENTS REGULATION, 1917.

Whereas it is expedient further to amend the Negotiable Instruments Regulation, 1917; His Highness the Maharaja is pleased to enact as follows:

Amendment of Sections 63 and 83.

Insertion of a new Section 75A.

Excuse for delay in presentment for acceptance or payments.

1. In Sections 63 and 83 of the Regulation, for the word 'twenty-four' the word 'forty-eight' shall be substituted.

2. After Section 75 of the Regulation, the following Section shall be inserted, namely:—

75A. Delay in presentment for acceptance or payment is excused if the delay is caused by circumstances beyond the control of the holder, and not imputable to his default, misconduct or negligence. When the cause of delay ceases to operate, presentment must be made within a reasonable time."

STATEMENT OF OBJECTS AND REASONS.

The British Indian Negotiable Instruments Act, 1881, has been amended by Acts XXV of 1920 and XII of 1921 providing for excusing delay in making presentment for acceptance or payment when the delay is caused by circumstances beyond the control of the holder and extending the time limit within which bills are to be accepted after presentment, to forty-eight hours on the ground that the present time limit of twenty-four hours is too short and causes considerable inconvenience and hardship.

It is considered desirable to make similar provisions in our Regulation and hence the draft Bill.

No. 463—L.C., dated 18th April 1922.

Under Rule 31 of the Rules for the conduct of business of the Mysore Legislative Council, the accompanying Bill further to amend the Municipal Regulation, 1906, is published for general information with the statement of objects and reasons.

By Order,

C. ABDUL GHANI,

Secretary,

Mysore Legislative Council.

BILL FURTHER TO AMEND THE MYSORE MUNICIPAL REGULATION, 1906.

Whereas it is expedient further to amend the Mysore Municipal Regulation, 1906; His Highness the Maharaja is pleased to enact as follows.

After clause (x) of Section 59 of the Regulation the following new clause (xi) shall be inserted, the present clause (xi) being renumbered as (xii).

(xi) An educational cess not exceeding two annas in the rupee in the City Municipalities and one anna in the rupee in the other Municipalities on taxes levied under clauses (i) and (x) to be utilised solely for purposes of education.

STATEMENT OF OBJECTS AND REASONS.

The schemes outlined in the Government Order on the Education Memorandum involve considerable additional expenditure on education which cannot be met from the existing resources. Government have therefore proposed that a portion of the amount required for meeting the additional expenditure consequent on the reforms should be met from fresh taxation. As one of the means of securing this, they have decided that the Local Boards and Municipal Councils be empowered to levy an education cess. The necessary amendment has been made in the Local Boards and Village Panchayets Regulation. OFFICIAL PAPERS.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

Revised Rules for Educational Grants-in-aid.

READ—Letter No. 1076, dated the 28th July 1920, to the Secretary to the Board of Education, pointing out the defects of the present Grant-in-aid Code and calling for proposals for the introduction of the system of salary grants and for revision of the Grant-in-aid Code in view of the abolition of fees in Primary and Lower Secondary Schools.

2. Letter No. 12, dated the 26th August 1920, from the Secretary to the Board of Education, submitting for the orders of Government a draft of revised rules for Educational Grants-in-aid.

ORDER No. 4557-8—EDN. 188-19-19, DATED 29TH MAY 1922.

The revision of the existing grant-in-aid rules, published with Government Notification No. 7067—Edn. 312-12-4, dated 20th January 1914, has been under consideration of Government for some time past. (The present rules which provide, in the case of Primary Schools, for a fixed grant towards the pay of the teacher and a capitation grant per pupil, and in the case of Anglo-Vernacular and High Schools, for a grant which may ordinarily be equal to the entire excess of expenditure over income, have been found to be defective. The fixed salary grants to Primary Schools are no longer adequate in view of the increased salaries required to be paid under present conditions. But the main defect of the existing rules is that they admit of schools being started with no sources of income other than the Government grant and school fees when levied. In order to prevent the starting of "venture schools" and to ensure that a fair proportion of the cost of maintaining aided schools is borne by the management, grants to Anglo-Vernacular and High Schools have come to be assessed generally at half the excess of expenditure over fee-income, but there are numerous cases in which the Government have, in accordance with rules, given grants equal to the entire excess of expenditure over income, such income frequently being nothing beyond the fee-income. The abolition of fees in Middle Schools sanctioned in Government Order No. 6634-5—Edn. 357-19-1, dated the 23rd January 1920, has further complicated the problem by

throwing upon Government the liability of compensating aided schools for the loss of fee-income. In the case of schools which have no income except fee income and the Government grants, the result has been that such schools are practically maintained solely by Government. Another defect of the existing rules is that they do not afford any inducement for the employment of trained teachers in aided schools.

2. The Board of Education was requested to revise the rules so as to remedy these defects. The draft rules submitted by the Board with a few modifications were published in the Gazette and the views of the public invited thereon.

3. The rules as finally approved are printed as an annexure to this order. They will come into effect from the 1st July 1922.

4. The main features of the revised rules are :—

- (i) that a minimum income from endowments, subscriptions, etc., of a permanent nature, sufficient to meet one-fourth of the total expenditure should be contributed by the aided agency;
- (ii) that salary grants equal to half the pay may be given for trained teachers, the grant being reduced by twenty-five per cent in the case of untrained teachers;
- (iii) that, in addition to salary grants ordinary grants may be given to meet the excess of expenditure over income where necessary;
- (iv) that existing aided schools which have less than the minimum income may be allowed a period of three years within which to comply with the rule regarding minimum income from endowments, etc.

5. The Inspector-General of Education is requested to submit for the approval of Government a statement of grants to aided institutions revised in accordance with these rules.

K. MATTHAN,

Chief Secretary to Government.

1. GENERAL RULES.

Object.

1. With the object of maintaining, extending and improving the means of secular instruction in the State, a sum of money will be annually allotted by Government for distribution as grant-in-aid to schools and other educational institutions under private management which impart sound secular instruction subject to certain conditions hereinafter specified.

When the management rests in a body, the manner of their election or appointment, the conditions of tenure of their office and their duties and powers should be prescribed by rules.
- (g) The Department must be satisfied that—
 - (i) the buildings and premises are healthy, in good repair, properly drained and ventilated and contain sufficient accommodation;

- (ii) each class is provided with the standard of furniture and apparatus prescribed by the Department.
- (h) No portion of the income of the institution shall be used for other than strictly educational purposes.
- (i) No school which has been opened without the previous sanction of the Inspector-General shall be eligible for aid unless and until it has had an uninterrupted existence of two years.

- (l) Grants are liable to be reduced or withdrawn at any time if the conditions of recognition under the Standing Orders are violated or cease to be fulfilled or if the standard of income and expenditure on which they have been sanctioned is departed from.
- (m) No grant for general purposes shall be withdrawn before the expiry of its guaranteed period without the management having had an opportunity of stating reasons why it should not be withdrawn.
- (n) All appointments and changes in the staff of the institution shall be reported to the Inspector-General of Education with a statement of qualification and pay, and it shall be competent to the Inspector-General of Education to forbid the employment of any teacher who is not duly qualified or who is for any other reason considered unfit to be a teacher.
- (o) Government reserve to themselves the right to forbid or to prescribe the use of any book or books in aided schools and colleges. Managers of schools shall as a condition of receiving grants-in-aid from public funds be required not to use, without the express sanction of the Inspector-General of Education, any text-book which is not included in the authorised lists of text-books, which may from time to time be issued by him.
- (p) The teaching staff of an institution in receipt of a grant shall not engage in political agitation directed against the authority of Government or in any agitation or movement which is or may be accompanied by or result in ill-feeling between different sections of the community or give expression in any way to opinions which may excite feelings of political disloyalty or disaffection.
- (q) If in any area there is but one institution of a certain grade, and that a denominational one, in receipt of a grant, attendance at religious instruction in such a school shall be voluntary, such classes being held either in the first or last period of the time-table. It shall be open to parents on a written requisition to the Headmaster to withdraw their children from such classes. Attendance in these classes shall not count for general attendance.
- (r) No school shall be eligible for a grant-in-aid under these rules which is not open to all communities. An exception may be made in the case of schools started in the interests of any particular community restricting admission to pupils of that community on grounds of religious belief, social customs or other reasonable cause.

Kinds of grants.

III. The grants that may be given to recognised institutions under this Code are:—

- (i) Salary grants, i.e., grants equal to half the salary of fully trained and full-time teachers.

1. The amount of grant allotted to all teachers in Elementary, Vernacular, Middle and High Schools will be equal to half the salary paid by the school in cash up to a maximum of the scale of staff and pay laid down for Government Schools.

2. The full salary grant will be paid only in the case of trained and qualified teachers, the rates for untrained teachers being only 75 per cent of the rates for trained teachers. For purposes of this rule, untrained teachers who have put in a term of ten years in any recognised school shall be deemed to be trained teachers.

3. The sanctioning authority may, however, increase the grant for any teacher by not more than 50 per cent for particular areas, or for girls' schools or schools for the depressed classes. Recommendations of the Special Finance Committee in regard to the Revenue Department.

49253³

ORDER No. R. 7048-109—L. R. 341-21-1, DATED 16—19TH JUNE, 1922.

The Committee have made the following recommendations:

I. Revenue Commissioner's Office.—

(a) That the salary of the Revenue Commissioner may be fixed at Rs. 1,400 without any duty allowance, the reduction being brought into effect on a change of incumbents.

(b) That of the two Assistants to the Revenue Commissioner, one may be abolished.

(c) That the office establishment is capable of considerable reduction in all Revenue Offices and that a special officer be placed for duty under the Revenue Commissioner to study the possibilities of reduction of work, and of establishments.

(d) Grants for travelling allowance and contingencies may be reduced to Rs. 4,000 each.

II. District Establishment.—

(a) That the Chintamani Sub-Division in the Kolar District be abolished.

(b) That the post of the Personal Assistant to the Deputy Commissioner, Tumkur, be abolished forthwith.

(c) That the post of the Personal Assistant to the Deputy Commissioner, Mysore District, be also abolished.

III. Taluk Establishments.—

(a) That the Sub-Taluks of French Rocks, Gudibanda, Kumsi and Harihar be abolished.

(b) That a permanent monthly allowance of Rs. 40 be given to Amildars and Deputy Amildars instead of travelling allowance under the usual rules.

2. One of the posts of Assistant to the Revenue Commissioner has already been abolished in Government Order No. R. 6311-12—L. R. 317-21-1, dated 13th May, 1922.

3. Necessary reductions in the grants for "Travelling Allowance" and "Contingencies" have been effected in the next year's budget.

4. The post of Personal Assistant to the Deputy Commissioner, Tumkur District, has been abolished in Government Order No. 6212-71—C. B. 115-21-8, dated the 5th April 1922.

5. The duty allowance now attached to the post of the Revenue Commissioner will be abolished in the case of future incumbents.

6. The Chintamani Sub-Division in the Kolar District will be abolished and the taluks now comprised in it will be redistributed as follows with effect from the 1st July 1922:—

(a) Kolar Taluk will be placed under the Treasury Assistant Commissioner.

(b) The Deputy Commissioner will be in direct charge of the Bowringpet Taluk.

(c) The Taluks of Malur, Mulbagal, Srinivasapur and Chintamani will be constituted as one Sub-Division, styled Malur Sub-Division with headquarters at Kolar.

(d) The rest of the taluks, viz. Chikballapur, Goribidnur, Bagepalli (including Gudibanda) and Sidlaghatta will form the Chikballapur Sub-Division, with headquarters at Chikballapur.

7. In view of the fact that the Mysore District is a heavy charge and that the work in this District Office requires close supervision by a Gazetted Officer, Government consider that the post of the Personal Assistant to the Deputy Commissioner of Mysore cannot be abolished.

8. The Sub-Taluks of French Rocks and Gudibanda will be abolished with effect from the 1st July 1922, in accordance with the decision contained in Government Order No. 14144-94—L. R. 338-15-71, dated 6th—21st May 1919. The proposals received from the Revenue Commissioner in this behalf with his letter No. C. 1055, dated 13—16th August 1920, are approved. They will be separately notified.

9. Amildars and Deputy Amildars will hereafter draw for journeys within their own taluks daily allowance at Rs. 2 and Rs. 1-8-0, respectively, instead of mileage or daily allowance as the case may be as at present. For journeys outside their jurisdiction they will draw travelling allowances under the general rules.

10. It is not possible to abolish Harihar Sub-Taluk as it is an important station on the British frontier. As the Shimoga Taluk to which Kumsi Sub-Taluk would have to be added if abolished, is stated to be already unwieldy, the feasibility of abolishing Kumsi Sub-Taluk by suitable adjustments will be further examined.

11. Separate orders will issue as regards the deputation of an officer for examining the systems of work in typical revenue and other offices, with a view to simplifying methods of work, reducing the quantity of avoidable correspondence, retrenching clerical establishments.

12. The Revenue Commissioner is requested to examine once again the feasibility of abolishing the Kumsi Sub-Taluk by suitable readjustments in the Shimoga District and submit his further proposals.

Secretary to Government, Revenue Department (in charge).

Reviving the Taluk Treasuries at District Head-quarters.

READ—

Government Order No. Fl. 8075-85—G. F. 170-16-11, dated 27th June 1917, approving of the scheme of the Special Officer Mr. K. L. Datta, M.A., for the simplification of work and revision of forms and registers in District and Taluk Treasuries, one of the special features of which being that the Taluk Treasuries at the head-quarters of districts should cease to be paying offices but should receive only collections of Land and Excise Revenues and recoveries on account of Land Improvement and Takavi loans and remit them every day to the District Treasuries which should attend to all other transactions.

(2) Correspondence ending with letter No. 1567—G. 20-21, dated 12th March 1922, from the Revenue Commissioner in Mysore, forwarding with his views a copy of letter No. 975—T. A. D. 6033, dated 5th January 1922, from the Comptroller expressing his opinion in the matter of reviving the Taluk Treasuries at District head-quarters.

(3) Letter No. 1049—G. 21-22, dated 12th March 1922, from the same officer, stating that the question of retaining or abolishing the posts of Nagadi Gumastas in the District Head-quarter Taluk Treasuries rests on the orders to be passed by Government on the proposal to revive those treasuries.

ORDER No. R. 7137-46—L. R. 270-21-6, DATED 19TH JUNE 1922.

The need for reviving the Taluk Treasuries at the District head-quarters has been urged at every session of the Representative Assembly held since the 1st August 1917, from which date the new arrangement sanctioned in the Government Order read above, was adopted. The Comptroller concedes that the case for re-opening the Taluk Treasuries at Bangalore and Mysore is strong, but suggests that orders in this behalf may be deferred till the question of transfer of the work of the Treasuries to the Mysore Barr, is decided. At other District head-quarters, he considers that it is not necessary to revert to the old arrangement and that the inconvenience said to have been caused to the public under the new arrangement according to which some collections have to be paid into the Taluk Treasuries and others into the District Treasury, can be removed by authorizing the Taluk Treasuries to receive besides the items mentioned in the Government Order referred to, other collections which are now received in the District Treasuries. Another inconvenience urged as a ground for the revival of these Taluk Treasuries is that District Treasuries have to be kept open till late in the evening during the collection season to admit of collections received in the former being remitted to the latter the same day. The Comptroller thinks that this inconvenience may also be removed by authorizing the Taluk Offices to retain the collections on any day on which they are heavy for one night and send the same to the District Treasuries the next morning, provided the required guards and other facilities for keeping the Treasure exist in the Taluk Offices.

2. The Revenue Commissioner, however, strongly recommends that the old arrangement may be revived as it entails no extra cost to Government, but will on the other hand facilitate Government work and afford convenience to the public. Besides, the Barr and the Police guards, which are continued in the several head-quarter Taluk Treasuries (except Bangalore) in accordance with Government Order No. Fl. 414-24—G. F. 235-17-2, dated 19th July 1918, the full establishment consisting of Nagadi Gumasta, Shroff and Gollat is

also reported to be still kept on in these Treasuries. In these circumstances, Government are pleased to sanction the Revenue Commissioner's recommendation with effect from 1st July 1922.

3. If the transfer of Treasury work at Bangalore and Mysore to the Bank of Mysore, is effected hereafter, and if it requires any re-adjustment of work in the Taluk Treasuries, the matter may be considered at the time of such transfer.

Lands available for cultivation.

READ—

Government Order Nos. R. 4718-9—L. R. 209-14-4, dated 12th November 1915, and R. 12851-2—L. R. 522-16-2, dated 25th June 1917, stating that it is unnecessary to publish lists of lands available for cultivation in each village.

2. Government Order No. R. 3820-68—L. R. 89-16-5, dated 11th October 1917, issuing certain instructions with a view to ensure expeditious disposal of darkhasts.

3. Subject Nos. 26 and 28 of the Proceedings of the Representative Assembly of the Dasara Session of 1921, suggesting the publication of a list of lands available for cultivation in each village and the grant of lands lying fallow for three years at an upset price within a month from the date of application.

4. Correspondence ending with letter No. C. 2589—Gl. 21-22, dated 20th April 1922, from the Revenue Commissioner in Mysore, submitting his proposals on the subject.

ORDER No. R. 7150-9—L. R. 181-21-53, DATED 20TH JUNE 1922.

Government approve of the Revenue Commissioner's proposals that two lists of all assessed waste lands in each village available for cultivation may be put up at the village chavadi, the lands being classified under two heads A and B. All assessed lands on which there is no *malki* (trees, wells, buildings, etc.) or the value of *malki* on which does not exceed the assessment on the land should be included under A, and the others under B. Lands classed A should be given to the first applicant without sale, i.e., either free or for an upset price equal to the value of the *malki* and lands classed B should be disposed of by public auction. The Amildar need not obtain the orders of the Sub-Division Officer for granting any land included in "A" list for upset price, as required in para 4 of the order of the 10th October, 1917, read above, and no report of enquiry by Sheikdar is needed in the case of these lands.

2. The two lists should be revised annually during the Taluk Jamabandy and submitted to the Huzur Jamabandy Officer in triplicate for his approval. After approval by him one of the lists should be left with the Shanbhog for his reference and the other posted at the village chavadi for the reference of the villagers and the third retained in the Taluk Office. Objections from villagers to the classification of lands under "A" will be disposed of by the Amildar, his orders being subject to appeal in the ordinary course.

3. On receipt of application for lands classed A, Saguvali chits may be issued by the Amildars, without any enquiry the usual formalities prescribed for sale being observed only in the case of lands classed "B".

4. In pursuance of the foregoing instructions, Government direct that the following be substituted for the 1st three paragraphs of Rule 43 of the Revenue Rules:—

"In order that people may know what lands can be had on mere application and what are liable to be sold by public auction, all unoccupied lands should be classified under heads "A" and "B". All assessed lands on which there is no *malki* (trees, wells, buildings, etc.) or the value of *malki* on which does not exceed the assessment on the land, should be included under "A". The lands of this class will be given to the first applicant without sale, i.e., free of price, or for an upset price equal to the value of the *malki* as entered in the list. The following description of lands will be included under "B":—

(a) Assessed lands in the vicinity of Railway Stations within the limits prescribed by Rule 52.

- (b) Assessed lands irrigated or likely to be irrigated by large irrigation projects.
- (c) Assessed lands containing Sandal trees.
- (d) Assessed lands containing fruit or other trees or wells or buildings, the value of which exceeds the assessment on the land. These will invariably be sold by public auction after observing the prescribed formalities.

5. The description of the several classes of land included in list "B" with a note that it should not be granted free of charge, shall be entered against every Survey No. in the Khetwar Patrika, which should invariably be referred to at the time of disposing of the darkhast.

6. In the case of lands classed "A" no report from the Shekdar prescribed in Rule 41 is necessary. As soon as an application is received, the Amildar should grant the prescribed permit for occupation of the land unless more than one application is received, the same day, in which case the land will be sold by public auction.

7. The lists "A" and "B" will be prepared in triplicate for each village and revised every year by the Amildar at the time of Taluk Jamabandy and submitted for the approval of the Huzur Jamabandy Officer. After approval, one copy will be exhibited at the Village Chavadi, another will be kept in the Taluk Office and the third will be with the Shanbhog. Objections from villagers to the inclusion of the lands under "A", will be heard by the Amildar and disposed of by him, his orders being subject to appeal in the ordinary course.

A. V. RAMANATHAN,

Secy. to Govt., Rev. Dept. (in charge).

Disposal of Pension Applications.

ORDER No. FL. 5619-68-S. & A. 123-21-1, DATED 19TH JUNE 1922.

Several instances of delays, sometimes extending to years, in the disposal of pension applications have been brought to the notice of Government. Instances have also been reported in which for want of sufficient information it has not been possible for the Comptroller to sanction even anticipatory pensions. The hardship caused to retired officers who are kept out of their pensions for long periods is obvious. The delays that are occurring in the disposal of pension claims are entirely the result of inadequate attention paid to the maintenance of service registers of officers which should be maintained always in an up-to-date condition by a contemporaneous record of all events relating to their services as required by the Mysore Service Regulations and the Account Code and the attention of Heads of Offices and Departments have several times been drawn to it. The neglect of this record causing avoidable hardship to retired officers will not be countenanced by Government. Heads of Offices and Departments should see that pension claims of retired officers are settled with the least possible delay and to attain this result, they should take all steps necessary to have the service registers of officers under them maintained in the condition necessary for the preparation of pension applications as soon as officers are relieved of their duties. Government will take severe notice of the conduct of officers responsible for delays in the disposal of pension claims. The Comptroller is requested to report for the orders of Government instances in which pensions are not sanctioned within one month of the dates of relief of retired officers to whom pensions are due.

Para 8 of Government Order No. R. 7048-109—L. R. 341-21-1, dated 16—19th June 1922, ordering certain retrenchments in the Revenue Department.

ORDER No. R. 7205-7266—L. R. 341-21-3, DATED 21ST JUNE 1922.

In order to give sufficient time to provide for the sub-taluk staff elsewhere, to redistribute the villages of the sub-taluks in the adjoining taluks and to make arrangements for the transfer of the records and village accounts of the Sub-Taluk Offices to the Taluk Offices concerned, Government are pleased to direct that the abolition of the Sub-Taluks of French Rocks and Gudibanda sanctioned in the above order, be given effect to, from 1st September 1922 instead of 1st July 1922.

OF IMMOVABLE PROPERTIES.

It is hereby notified that in satisfaction of arrears of land revenue due by the revenue defaulters, the undermentioned immovable properties will be sold by public auction as shown below.

The sale will commence at 11 A.M. and the properties will be knocked down to the highest bidders without reserve.

2. The amount of revenue payable by the purchaser on the property for the whole (or remainder, as the case may be) is as shown in detail in the statement at foot.

3. Purchasers will be required to deposit twenty-five per cent of the purchase money at the time of sale, and where the remainder of the purchase money may not be paid within fifteen days from the date of the sale, the money so deposited shall be liable to forfeiture.

4. When such deposit shall not be made, nor the remaining purchase money paid up, the property shall be re-sold at the expense and risk of the first purchaser.

5. The sale shall be stayed, if the defaulters, or any person acting on their behalf, or claiming an interest in the property, tender the full amount of the arrears of revenue with the interest and other charges, provided such tender be made before the property is knocked down.

6. The sale of the property will not become absolute until the sale has been confirmed by the Deputy Commissioner or by some other officer duly authorized to confirm the same.

7. Purchasers having completed the payment of the purchase money, will, as soon as the sale has been confirmed by the Deputy Commissioner, be placed in immediate possession and the property will be registered in the name of the purchasers, and a certificate of sale, signed and sealed by the Deputy Commissioner, will be granted to them. It is to be distinctly understood that the Government are not responsible for errors of description or in estimated extent.

8. Provided, parties deeming themselves aggrieved by the sale, shall be at liberty to appeal to the Deputy Commissioner within thirty days from the date of sale, and also to appeal to the higher authorities against his order within the time prescribed by law, and the purchase shall be conditional on the final order in such appeal.
